THE SCHOOLS BELONG TO YOU

(Continued from Page 1-A)

properly; they are entitled to instruction which will give them command of one or more foreign languages.

10. Your child, if he desires, should have opportunity to learn to become a machinist or an automobile mechanic; he should be able to learn the printing trade if he wishes; he should have opportunity to prepare himself to step out into the field of journalism; to complete a course in stenography by which he or she can step into an office prepared for the task of earning a living; to master book-keeping, or any one of a score of vocations. You have a right to demand that your child be prepared for life, during 12 years of schooling; or adequately prepared for higher education.

11. Your child is entitled to the benefits of a well-rounded school recreation program, under which playgrounds are kept open throughout the year, summer and after school, with qualified supervision on the job to teach him to play and keep him engaged.

12. Your child is entitled to know the history of the United States; the geographical makeup of the world which is "shrinking" with the coming of fast air travel, robot-controlled bombs, atomic energy and the like. He is entitled to a course in chemistry, botany, biology, physics.

The difference between the courses of study which are provided by law, for which we have been paying, and the instruction which the children of Torrance have been getting demand your "Yes" vote on the City Charter on Tuesday.

If you want to have for spending on the schools of your city the money which Los Angeles has been sending elsewhere in the big district making up the Los Angeles system, you must vote "Yes" on the City Charter.

If you want to bring control of the schools of your city back to the people of the city, an advantage enjoyed in almost every American city, vote "Yes" on the City Charter.

If you believe in democracy and democratic government of your affairs, vote "Yes" on the City Charter.

It is your decision, and mine. We are the people. Do we have the right to govern ourselves? Constitutionally, yes. We will extend that right to the schools on Tuesday.

Vote "Yes" on the City Charter.

MEATS MAKE THE MEAL

So let's talk about it. The average housewife today is somewhat price conscious on meat because price control was recently lifted on this commodity. Price conscious to the point where many overlook the quality, whether it be a roast or steak, many now know that the cheapest piece of meat that can be bought is one that is relished through its flavor and tenderness. In price this piece of meat may cost a few cents more than the roast or steak that was purchased strictly on price appeal and taken home only to be destroyed because of its toughness or lack of flavor. This meat turned out to be the most expensive. Remember, do not let the price fool you. Our business was built on quality. We stand behind every cut with a guarantee in flavor and tenderness. Our prices conform to the closest margins allowable on present stock yard quotations, please note.

Why homemakers' husbands have to agree

Typical California homemakers say, "Golden State Cottage Cheese is wonderful!" Want to know why? Well, first we pasteurize fresh, pure milk, and add a special culture prepared in Golden State's own laboratories...

Then we cook it with care... just a trifle too much heat would make it tough. And there's where skill born of long experience counts. No mechanical gadget can substitute for our expert cheesemaker's artistry.

Our masterly cheesemaker blends in thick, rich cream, too. It's carefully carbonated, and then... to make sure that you enjoy it at the peak of perfection... we never allow its temperature to exceed 40° as we rush it to you.

It's a nourishing food that cools you on sizzling summer days. Its high in tissue-building protein... yet low in heat-generating calories. No wonder typical homemakers' husbands, too, say "It's wonderful!"

Barbara Tate suggests:

COTTAGE CHEESE FRUIT SALAD

Place a mound of Golden State Cottage Cheese on a bed of lettuce, in a colorful salad bowl. Allow four servings per pint of cottage cheese. Arrange attractively around the mound of cheese, any fruits in season or available canned fruits.

Fruits which lend themselves to delectable combinations are: Peach and pear halves; sweet cherries; melon balls — watermelon, cantaloupe, honeydew; loganberries, strawberries, blackberries, plums; apricots; pineapple; orange and grapefruit segments; figs; avocado.

Fruits used in the salad illustrated are pear halves, Bing cherries, pineapple and plums. Two favorite dressings are mayonnaise thinned with fruit juice or French Dressing made with lemon juice and oil.

Better order your Golden State Cottage Cheese today... at your grocer's — or have the friendly Golden State milkman deliver it to your door.
