

GI's PLAY HOST—No identification cards were needed by these Philippine war orphans who were royally entertained by American GI's at the Intramuros Club, Manila. USO clubs still operate in the Philippines, where troops on occupation or in transit get a welcome foretaste of home. The soldiers pictured here are: (L. to R.) Pvt. Robert Harrison, of Indianapolis; Pfc. Duane K. Raymond, of La Feer, Mich.; and Sgt. C. B. Nezbech, of Alliance, Ohio.

BOULDER DAM HAS 328,674 VISITORS DURING PAST YEAR

Its first year of postwar operation completed Sept. 1, and with all statistics summarized, Bureau of Reclamation officials at Boulder City announced, the guide service at Boulder Dam has experienced one of its best years on record. With 328,674 visitors taking the guided tour through the dam and power plant, the past 12 months exceeds all other yearly totals, except those of 1939 and 1941.

PORTABLE LIGHT

Mankind first used a brand from the campfire as his portable light. Later he found that the oil of animals and vegetables could be employed. The electric flashlight has been the first major advance in portable light since before the days of the early Greek civilization.

Our Insecticides And Sprays Are Prescriptions

Appoint Wallace Sales Manager Of National Tube Co.

Appointment of Henry J. Wallace as general manager of sales was announced by United States Steel's National Tube Company. He succeeds W. F. McConomy, who recently was elected National Tube vice president in charge of sales.

A native of Pittsburgh, Mr. Wallace began with the company in 1928 as a laborer at the Ellwood City, Pennsylvania plant. He took a National Tube student training course at the Lorain, Ohio plant in 1929 and then was a field engineer in the Pittsburgh sales division until 1933. Following this, he served in a sales capacity at Indianapolis and Pittsburgh until 1937, at which time he was made manager of sales of the Pittsburgh district office. In 1942 he was named assistant general manager of sales in charge of ordnance, and until 1945 handled the company's contracts with the Army and Navy for shells, bombs, rockets and other material at Christy Parks Works and National Works, McKeesport, Pennsylvania, and Gary Works at Gary, Indiana. Since 1945 he has been sales manager of the eastern area, with offices in New York.

Mr. Wallace was graduated from Harvard University with a B. A. degree in 1928.

ALLOW STOPPING SPACE

Following too closely is doubly dangerous for motorists driving on the highway. If the vehicle ahead stops suddenly, you may crash into it and be struck by the car following you. The rule of many motorists to allow one vehicle-length between the car ahead and every ten miles of speed is good but does not provide the necessary safety margin demanded during inclement weather.

LESS PATENTS

The Patent office in Washington is averaging only about 430 new patents a week this year as against a prewar average of almost 800.

NEW SURVEY FOR RETIREMENT PLAN IS NOT NEEDED

Even though the city's participation in the State Employees Retirement System, to provide pensions for city employees, cannot be effective until July 1, 1947, no new valuation survey will be needed, Ralph R. Nelson, actuary, informed the City Council Tuesday night. Two surveys already have been made. Nelson said that the valuation will be corrected in 1950, if the plan is adopted during the present fiscal year for operation starting July 1, 1947.

AMERICAN LEGION TO PRESENT DANCE ON NEW YEAR'S EVE

Bert S. Crossland post No. 170, the American Legion, has secured the Civic auditorium for the Dec. 31 New Year's eve dance, it was revealed Tuesday night at the City Council meeting.

Last year, the Veterans of Foreign Wars and Lions club joined in presenting the New Year's eve dance and it proved highly successful.

The Ravens club, made up of veterans, is seeking the auditorium for a Halloween dance Oct. 30.

PARKING PROHIBITED ON VERMONT NEAR NEW SPEED TRACK

On motion of Supervisor Raymond V. Darby, the Board of Supervisors at its Tuesday meeting approved the report of its county traffic committee that parking should be prohibited on Vermont avenue in the vicinity of the stadium used for automobile races immediately south of Gardena city limits. Investigation made in this area disclosed that such parking interrupts the free flow of traffic and creates congestion to the extent of increasing the traffic hazard.

HOMES OR OIL? QUESTION FACED IN NORTH AREA

This question is being weighed in North Torrance and in some sections west of Gardena, since the new British-American-Texas Co. well was brought in at 2,500 barrels a day a half-mile northwest of Redondo Beach blvd. and Crenshaw blvd.

One tract, known as Torrance Manor, where several hundred G. I. homes had been planned, is reported to have been leased to an oil company for exploration. The tract is at 174th st. and Crenshaw blvd.
