No Diphtheria Cases Reported Here This Year

Parents whose children have not been immunized against diphtheria in the past five years, and who did not have this done when the local schools were visited by health officials, are urged to take the children to their private physician or the local health center for this service, Dr. Henry C. Smiley, Torrance district health officer said as the final immunizations in schools are getting under way.

There has been no case of diphtheria in Torrance so far this year as compared to seven to the same date in 1945.

The county health department suggests that children first receive the diphtheria shots between the ages of 6 and 12 months, again at five years and the final protection at 10 years.

CHRONIC AMEBIASIS
Chronic amebiasis, an intestinal ailment, may be treated successfully in the future as a result of research in the University of California Medical School.

Dr. Talks On Prevention Of Typhus Fever

By ROY O. GILBERT, M. D.
Los Angeles County Health Officer

In most instances, an attack of typhus fever confers a lifelong immunity. No highly effective or reliable method of immunization against the disease has been found. Convalescent serum has been used but probably is not of great value.

The most frequent complication of typhus fever is pneumonia. Other complications may include phlebitis, gangrene of the skin, and heart involvement may follow.

Prevention of epidemic typhus fever is a question of personal cleanliness and is focused on the eradication of the body and head louse. Lice on the body or head can be killed by using a lathane spray or by using a dusting powder of DDT on the clothing and hair, being careful not to inhale any of the material. Infested clothing should be sterilized and if possible, the material should be boiled. Where infested clothing is subjected to heat at 140 degrees temperature for 20 minutes, lice in all stages of development

The control of endemic, or the rat flea type of typhus fever, is more difficult and requires rat extermination and rat-proofing campaigns in order to free the community from sporadic cases of flea-borne typhus.

This form of typhus fever can be prevented by removing the cause—contact with typhus infested rats and rat fleas. Prevent typhus by controlling rodents and their disease-bearing fleas.

CAPALLINO GIVEN ZONING VARIANCE FOR FEED STORE

Joe Capallino was granted a zoning variance to permit the establishment of a poultry and feed business on his land at 174th st. and Hawthorne ave. by the City Council Monday afternoon.

The petitioner had asked for a change of zone, but this was withheld to give the City Planning Commission to study the whole rezoning picture of that area as suggested by Col. W. J. Fox, director of the Regional Planning Commission.

NOT WINGS, JUST FLAPS—You might expect huge wings for Howard Hughes' new 320-foot flying boat, being assembled at Long Beach Harbor, Cal., but these are merely flaps for the wings. Each of these flaps is 74 feet long, five feet longer than those of a B-29 bomber. They're en route, above, from the Hughes plant at Culver City.

WINSOME—Movie directors formerly paid much attention to Martha Raye's famous mouth. But in a forthcoming picture a director has turned his attention otherwise, as shown here. Miss Raye is to appear in the picture with Charlie Chaplin.

Warning Issued On Vets Housing Racket In State

Lawrence C. Stevens, state director of veterans affairs, warned veterans of housing "rackets" being carried on in many parts of California.

He urged former servicemen to make a thorough investigation of the probable ability of a contractor or real estate agent to deliver a house within a reasonable time before making a deposit of any kind.

"We have been receiving numerous complaints from veterans, most of them desperate for housing, who have made deposits of \$100 or \$200, and sometimes as much as \$500, only to find later that they have made a down payment on a vacant lot, or at best that they have an option on a house which might be built at some undetermined time in the future," Stevens said.

JAP DAMAGE REVEALED
Of the 1,725,000 tons of major warships lost by the Japanese in the last war, American carrier-based aircraft accounted for most with 680,000 tons sunk. Submarines destroyed 507,000 tons and surface ships 257,000 tons. Land-based aircraft accounted for only 62,500 tons.

G.O.P. Has Great Responsibility, Says Shattuck

"The citizens of California have expressed great confidence in the Republican party by the ballot," said Edw. S. Shattuck, vice chairman of the Republican State Central Committee. "But in placing that confidence the voters also charged the party with grave responsibilities."

"In giving Governor Earl Warren the largest vote ever given a California governor, the people of the state have paid high tribute to his leadership; they have elected men to the State Legislature who can and will take the kind of program that the governor and the legislature, together, will provide."

Entirely aware of the grave problems ahead that face the state and nation, Vice Chairman Shattuck extended his thanks and appreciation to the voters of Southern California, to the volunteer workers, and to the elected party nominees. Said Shattuck: "To the voting public, to the members of the Republican party, to these men and women who went into the precincts to carry the message of Republicanism, I extend my humble thanks and heartfelt appreciation. These men the voters have elected to state and national offices have the confidence and the support of not only the Republican party, but the members of both major parties."

"These men elected to the Congress and to state office are men of quality and courage," said Shattuck. "Their is the responsibility of shaping and directing the destiny of our government. They will not fail the American people."

Sepulveda Blvd. Traffic Detour Contract Given

Construction of a temporary roadway on the west side of the Los Angeles airport between Imperial and Century blvd., to handle Sepulveda blvd. traffic will start shortly as the result of a contract awarded to Frank T. Hickey.

Hickey, turned out to be low bidder with an offer of \$62,492 on construction of the by-pass which is necessary to handle traffic while Sepulveda is being lowered to become a tunnel underneath the airfield.

It was reported that the airfield will be enlarged to more than twice its present size by acquisition of acreage to the west and the tunnel will eliminate surface traffic across areas to be used for longer runways.

Publisher In Tribute To Local WAC In Germany

Sgt. Lillian V. Jones, member of a WAC detachment in Heidelberg, Germany, this week was reported from by Los Angeles Publisher Manchester Boddy, who wrote that he was exceptionally lucky to be seated with the Torrance Miss during a luncheon there recently.

Boddy reported in his column that Sgt. Jones was hungry for news from home, and asked to be remembered to friends here. The publisher declared that he was greatly impressed with the WAC group and they were "as fine a group of American girls as the good old U.S.A. can produce."

The highly praised WAC is the daughter of Mr. and Mrs. J. Jones, 2113 W. 218th st. A graduate of Torrance high school and U.C.L.A., Sgt. Jones was assistant librarian at the Westwood university prior to enlisting in the service.

Beach Protection Program Okayed By Supervisors

On motion of Supervisor Raymond V. Darby, the Board of Supervisors has approved plans and specifications for additional work in the restoration and protection of the beach at Redondo Beach, out of the monies contributed by the State, the County of Los Angeles and the City of Redondo Beach.

Through a saving made in the construction of the new sea wall under this joint project, sufficient funds are available to cap the existing sea wall to the north. After providing for the withdrawal of \$5,000 contributed to this fund by the county, which it will require to provide funds for the Shoreline Planning association, and the matching funds of the State of California and the City of Redondo Beach, it is estimated that \$49,298.81 will still remain in the fund, whereas the estimated cost of the additional work authorized on the existing sea wall amounts to \$44,000.

Harbor Christian Church Groups In Local Meeting

Nearly 100 representatives of Christian churches in the Harbor area attended a dinner meeting at the First Christian church of Torrance, under the direction of Mrs. Vincent Viellenave.

To promote relations between church members and the Christian church college, Chapman college, in Los Angeles, such meetings of laymen and women are being held in strategically located churches in Southern California.

Speaker at the meeting was President George N. Reeves of Chapman college. Entertainment was provided by students.

... the author of "Think and Grow Rich," and "The Philosophy of Individual Achievement" ... the man who shows you how to be successful ... the philosopher with 65 million followers.

HEAR
NAPOLEON HILL

Here is your opportunity again to hear the man who has formulated the reasons for success and failure, and has built them into a philosophy so potent that thousands attribute all their success to his teachings. Just one of his lectures might easily be the turning point in your life—the place where success becomes possible for you. Don't miss this opportunity to hear "the rich man from Happy Valley," as he discusses the "12 Great Riches of Life." Lecture starts at 8:00.

Every Wednesday Evening DURING NOVEMBER
New Masonic Temple — 835 Locust

Admission \$1.50 (incl. tax). FOR INFORMATION regarding lectures, classes, teaching opportunities, The Golden Rule News or a private consultation with Napoleon Hill, write 1162 Heartwell Bldg., Long Beach, or telephone Long Beach 741-23 or 322-22.

You Name It... WE PRINT IT!

FROM A CARD TO A BOOK

Printing is an art!
... And the impression it makes is telling—good or bad!

... That's why Good Printing is so important. And by Good Printing... we mean copy, layout, form, art, paper, color and type, as well as the actual printing itself!

All of this must be in character. The style, the form, the idea must do the job effectively as it is intended to do... whether it be an engraved social note or a black handbill.

Here you have the assistance of trained experts in the art of Good Printing. Ready and willing to help you... with a background of practical "know-how" and with a free library of over 10,000 illustrations.
