Letters to Editor

Roger Q. Williams
1516 W. 203rd st.
Los Angeles, Calif.
November 22, 1946

Editor Torrance Herald:
My open letter addressed to you under the date of November 11th was an honest and sincere public expression of disappointment in Torrance's Armistice Day celebration, or, should I say, lack of a celebration. It was based upon the facts before me, so therefore, I was not misled nor misinformed.

The intent was never meant to place the blame on anyone except those with troubled consciences. Judging by the letter addressed to you under the date of November 19 from a certain committee, perhaps I "smoked" out those who must have felt guilty.

The public, who lost nothing in the war, soon forget our heroes. Folks who lost their dear ones never forget, nor do the boys ever forget their comrades, therefore, it is the solemn obligation of the lucky lads to perpetuate lasting memories by planning a fitting celebration, "sparkplugging" it into action and lastly asking for the support and cooperation of the city fathers, service and civic organizations, the churches, the local newspaper or newspapers and the public. Why single out the Chamber of Commerce when Torrance enjoys so many thriving civic organizations whose members are composed of veterans?

The rest of the letter sounds like a bad case of "buck-passing" to me, so I think it best to ignore it.

Anyway, it's nice that the lads invited me to their meetings and I shall be honored to accept in the spirit in which it was given.

STEEL is used in making most of the things you buy—from paper clips to automobiles and refrigerators.

Higher labor and other costs have pushed up the price of almost everything you buy. But steel has gone up much less than most other products.

Since 1939 steel prices have risen less than 18 per cent,* compared with 44 per cent* for consumers' prices generally.

At an average price of only three cents a pound, steel is the lowest priced of all the metals.

Steel is your best bargain.
