First Line Company, 578th Combat Engineers, Assigned South Bay Area

Company A, 578th Combat Engineers battalion, California National Guard, has been assigned to the South Bay area, according to announcement of Lt. Col. Davis W. Campbell, of Manhattan Beach, commanding officer of the 578th.

The first line company of the 578th Combat Engineers, Company A will be headquartered in a location in Redondo Beach, but until suitable quarters are located, recruiting will be carried on at Battalion Headquarters in Torrance ball park.

First Lieutenant Dudley P. Jones, of 3412 Ocean drive, Manhattan Beach, has been assigned as recruiting officer for Company A, and will interview all those interested by appointment or at the Battalion headquarters in Torrance until the Redondo Beach recruiting office is set up.

Men from ages 18 to 36 may enlist, without previous military experience, it is pointed out.

Those over 36 must have had previous military service.

Pay will start upon acceptance for enlistment, starting at \$2.50 for each drill period—regular Army pay. Higher grades increase in proportion to the grade, it is pointed out. The battalion headquarters and service detachments drill two nights weekly until July 17, and they already have been federalized.

Company A, it is pointed out by Colonel Campbell, must have a minimum of one officer and 26 enlisted men by June 25, to be activated. Regular monthly recruiting minimum will be fixed following activation.

While men will be trained in combat tactics, there are openings for all types of construction workers, mechanics, truck drivers, tractor drivers, engineers, surveyors and similar qualified men.

Plan Vacation Wisely, Motor Official Says

"Plan wisely and drive safely if you want to enjoy your vacation," was the advice given motorists today by Edgar E. Lampton, director of motor vehicles.

"California highways are filling with vacation bound motorists and we want them to have pleasant and safe trips," Lampton continued.

Here are some of the tips the Motor Vehicle Department head is passing out:

Before you start, be sure your car is in good condition in every way.

Observe traffic laws. Accident or court fines are not only unpleasant but they cut deeply into vacation budgets.

Plan each day's drive so you will not become fatigued. Tired bodies and frayed nerves lead to many accidents.

Drive with care and enjoy the scenery.

Food and flowers are submitted as religious offerings to carved representations of cobras in many parts of India, according to the Encyclopaedia Britannica.
