

UNUSUAL INTEREST IS CENTERED IN FERN AVE. MEET

Fern Avenue P.T.A. held its first meeting of the new school term Wednesday evening, Sept. 24 in the school auditorium.

Widespread interest was shown in the new school system by the presence of the school faculty as well as the unusually large attendance of parents.

Principal A. N. Posner introduced the teachers, telling from where they came and a bit of each one's educational background. It was interesting to note that colleges and universities from all over the country were represented.

Mr. Posner outlined the plan for the new term, explaining that each child was being tested according to his grade, to properly place him in the grade from which he or she would derive the most good during the school year, doing away with the half-term session.

Mr. J. H. Hull, the Torrance City schools superintendent, was the principal speaker. He gave a very interesting talk on the need for more school room here now, and the plans we must make for our very rapidly growing community.

From the interest shown at the outset of the first term under the new system, this P.T.A. should prove very successful in its annual membership drive.

The meeting was adjourned and refreshments were served in the kindergarten room.
