Starting at 12:30 p.m., the show includes 12 classes of competition, with trophies going to first place winners and ribbons to second and third.

Among the many expert riders to appear on the program will be the Vessels-Girls-Duill Team of Long Beach; Jack Diamond, Bob Symons, the Hill Top Riders, the Saddle Pounders, the Golden West Riders, and a sheriff's mounted posse unit.

Scheduled events, in order, include: junior horsemanship, a stake race, a button race, trail horse class, a rescue race, a ribbon pulling contest, "speed and action," fast reining, stock horses, walk, trot, and canter race, and an old clothes race.

Never-Insured Vets May Still Qualify

Most World War II veterans in the Torrance area took out National Service Life Insurance during the war, but even though some failed to do so, they may still take advantage of this important protection for their dependents according to Miss Helen K. Dill, counselor at the Veterans Service Center.

However, Miss Dill said, any of these never-insured veterans who have service-connected disabilities must act promptly if they wish to obtain NSLI. They have a Jan. 1, 1950 deadline coming up.

Chest Campaign Workers to Call On Local Firms

Section chairmen in the Commerce and Industry Unit of the Torrance Community Chest campaign are calling on the heads of all business firms of 10 or more employees within the next week to organize the campaign effort within each firm, according to Dean Sears and Sam Levy. The chairman of the Torrance Chest campaign emphasized that this phase of the work must be completed within the next week so that campaign supplies can be packaged and delivered on time and in appropriate quantities to each firm.

As section chairmen complete their assignments, requisitions for firm supplies are sent to chest headquarters where other volunteers pack the supplies for distribution. Sears explained.

"This volunteer service saves Chest funds for important welfare service to the people of Torrance," Sears pointed out; "but to make the system work requires that section chairmen make their calls promptly on all firms assigned them, and that heads of firms make every effort to work with these volunteer section chairmen when they call," he said.

Section chairmen of firms with fewer than 50 employees are Harry Greenwood, Charles E. Ragsdale, Edward W. Long, and J. Parke Montague.

In the residential unit of the Torrance campaign, the Halldale PTA under the leadership of Chest Chairman Mrs. Glenn Bell is the first section to have all its workers signed up and ready to go. Chest headquarters reported.

Recruitment of the volunteer workers throughout the campaign organization is far behind that of last year and has slipped farther behind in the last three weeks, headquarters reported.

In the current emergency situation every effort to step up recruitment that there may be no gaps in the ranks when the campaign kicks off in October. Last year 40,000 volunteers were enrolled when 63,000 were needed, resulting in campaign failure and consequent reductions in services.

The success of this year's campaign is vitally important, especially to the Harbor Area, of which Torrance is a part, because it will mean that the services of the Visiting Nurses Club will be extended to this area in addition to badly needed minimum expansion of other services. Volunteers for Torrance may enroll at the Chest office in the Chamber of Commerce Building.

Other sections of the residential campaign are being manned by the Junior Women's Club under the leadership of Mrs. Albert Posner, Chest Chairman; and the Court of St. Catherine of Catholic Daughters of America, whose Chest Chairman is Mrs. T. T. Babbitt.

Active support of the campaign by the Woman's Club has been pledged by Mrs. Sam Rauss, president. Oral commitments to help man other sections of the campaign have been made by other groups; but chairman and workers are not yet signed up.

Letters To The Editor

Editor, Torrance Herald. I have owned many dogs and I have read many stories of dogs. I have come to the conclusion that although many pups are smarter than people think they are, many more are not nearly as clever as story books would crack them up to be.

To wit, viz. or i.e.: Last week you penned a story telling of a Torrance boy whose dog "Tippie" chewed his way out of a railway crate and is now at large in the hills of North Carolina, horse luck. Unable to return East to get the pup, the boy's family "believe" Tippie will make the journey home on foot.

That, my editorial friend, is sort of hard to believe. It's asking a lot of a dog to travel about 2500 miles on foot, without food or shelter.

If the dog's owners were half as faithful as they expect their dog to be, they would hop all over the railway company and insist that the company who

is responsible for the dog—get fido out here. And pronto. Sincerely, William K. Wright

POLICE OFFICER FATHER OF NEW BABY DAUGHTER
Mr. and Mrs. Harold H. Trezise of 2223 Dominguez avenue, yesterday welcomed their first child, a daughter, Janice Louise, born in Torrance Memorial Hospital.

The baby tipped the scales at 7 pounds, 12 ounces. Her daddy, a Torrance Police officer, is still busy passing cigars. Grandparents are Mrs. Irma Troise of 1920 Arlington avenue and Mr. and Mrs. William Creighton of 2256 Torrance boulevard.

The earliest railroads in the United States were built of wooden rails capped with thin strips, or "straps," of iron to provide a running surface for the wheels.
