Juicier meats— Less shrinkage WHEN YOU ROAST WITH GAS!

WHEN YOU ROAST meats uncovered in the oven of a modern automatic gas range, they are really roasted... not "stewed". Natural juices and flavor are sealed inside a deliciously browned crust—the happy result of steady oven heat and constant air circulation. The automatic heat control guards the temperature you select during every moment of roasting. And because gas is so controllable, you roast at an even low temperature, which means less shrinkage and more meat for your family.
