

Almost 400,000 ocean fish were landed by 115,000 party-boat fishermen in July, as California's ocean angling season rose toward its annual peak.

There are approximately three million miles of roads in the United States, or about one mile of road for each square mile of area.

Kettler Lad Has Fourth Eye Surgery

By ROSEMARY WESTON
DA. 6-5871

Sonny Duncan, 2077 Middlebrook Rd., should be getting well acquainted with nurses and doctors. He just had his fourth eye operation in his five short years. He went in the Midway Hospital in Los Angeles last Wednesday, but he only had to spend one night away from his mommy and daddy this time. We sure hope he'll be able to go back to kindergarten very soon.

Dale and Lorraine Stanton, of 23105 Falena Ave., went all the way to San Francisco for the week end. They enjoyed a nice big turkey dinner with her mother and dad, Mr. and Mrs. A. G. Davis. Lorraine said it was so cold and foggy that they could hardly see anything all the time they were there.

Larry and Wilma Brown, of 2059 Reynosa Dr., took their two boys and went for a ride out to Palmdale last Sunday. After partaking of a nice little picnic lunch, Steven and his daddy went off and hunted jack rabbits for the afternoon.

Chuck and Jean Herren, of 23102 Falena Ave., gave a nice big dinner for Thanksgiving. Among the guests attending were Jean's mother and dad, Mr. and Mrs. William Swope, Chuck's mother and dad, Mr. and Mrs. Ray Herren, Jean's grandmother Mrs. Tirzah Taber, and two nice Linda and Barbara Neafus. All were from Lomita. They all had a fine time eating turkey that Chuck raised in his own backyard.

Well, we've had another baby born in Kettler Knolls. The stork is still flying overhead, waiting to drop about four more little bundles in our tract, in the next two weeks. The bundle which landed a week ago last Monday, arrived at the John Crow, at 23309 Huber Ave. Weighing in at 7 lbs. 8 oz. at the Gardena Hospital was little Jack Leonard Crow. Besides his mommy Lola and daddy John, his party which, by the way, seems to be a new idea to no one but me, because three others have already been given for this same troop.

dena, and Mr. and Mrs. John B. Crow of Sacramento.

Mr. and Mrs. Norman Wolters, of 1844 Marinette, went to Portola, Calif. recently to visit Norman's brother Gerald Wolters and his family. While they were there Norman and his brother got in a little pheasant hunting. It was quite cold and they even saw a little snow on their way up there. Since Norman's brother is a logger they got their Christmas tree the old-fashioned way, by cutting it down and bringing it home with them.

Virginia and Gordon Jones, of 2054 Reynosa Dr., went to visit her sister Pat Rea and her four children in Woody, Calif. for four days. They had a very good time, and their children had lots of fun romping through the woods and all over. Virginia and 19 of her relatives all sat down to a delicious feast on Thanksgiving Day.

Thelma Setzer, of 23002 Walnut Ave., kept busy last Thursday afternoon selling all kinds of knickknacks and white elephants and such with the rest of her Rachel Circle at the Bazaar at the Methodist Church. They were among the Kettlerites who were invited out for their Thanksgiving dinner. They went to Dr. and Mrs. Rogers' home in Long Beach and had a very delicious repast.

Frank and Rosemary Weston took their out-of-town guest, Pat La Porte, to see a few of the sights in Los Angeles Sunday. Among the things they saw were Echo Park, which is also a wild duck sanctuary, and Chinatown which always has the most exotic things. And then they went to Clifton's Broadway Restaurant, and home to bed with their three tired children.

I would like to apologize for giving the impression in my last column that Mrs. Clever is the leader of the Browne Troop 576. I misunderstood her over the phone; she was just the one who gave the gift and gadgets party which, by the way, seems to be a new idea to no one but me, because three others have already been given for this same troop.

LAW IN ACTION

WHAT OUR COURTS DO FOR YOU

Today you may regard court trial as a game which strangers and their lawyers play, a contest. You may think you have little personal stake in it. You say: "What's it to me? A trial has to do with other people's troubles? Me? Well, I mind my own business. You'll wait a long time to see me in court."

Your Stake

"It may be news to you," let us tell you, "but you too have a stake in a court, each time it opens its doors, a stake as real as your tax bill."

"Oh, I know," you say, "you really mean, that I should take an interest in justice? But courts don't affect me personally."

Suppose the judge says the stranger does owe more. Well, then you and all people like this stranger may get a bill for more taxes.

So, this stranger stood in for you in court. For in defining his rights and duties, the judge was doing the same thing for thousands of other people like him. So what goes on in court is not mostly other people's troubles. But yours, too. For we believe in this country that laws should apply uniformly. What the law is for this stranger is the law for all people, including you.

NOTE: The State Bar of California offers this column for your information so that you may know more about how to act under our laws.

GRAPEFRUIT HUB
About 90 per cent of the world's grapefruit crop is grown in the United States.

FEW COUNTIES
Arizona's vast domain is divided into only 14 counties.

BEE HERDS
Bees are classified legally as livestock in the state of Wyoming.

LIGHT METAL
Magnesium is the lightest of the commercial metals.
