THE BIG LIFT . . . Get any old telephone poles you want jerked out of the ground? Yes, it can be done, as Pacific Telephone Lineman Jack Keeper, and John Smithson demonstrate above. Keeper is starting the air compressor that will apply a 44,000 pound lift to the hydraulic jacks that Smithson is

tightening to the pole with chains. The jacks jerk the poles from the holes as the chains strain; just another bit of evidence showing that man is mightier than an inanimate object. The above demonstration can be seen at the Telephone Co. open house today and Friday.

Building and Parks Dept. May Build 2 Harbor Swimming Pools

Torrance men, women and children, along with residents of the entire Los Angeles area, may enjoy use of two new swimming pools in the near future if the Los Angeles Building and Safety Department concurs with the Recreation and Park Commission.

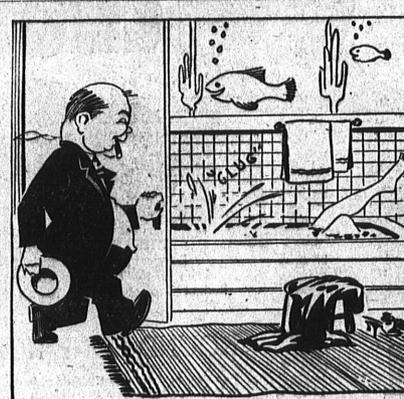

The Commission Thursday gave its approval to revised plans and specifications for the project, to be constructed at Harbor Park, Wilmington, adjacent to Harbor Junior College, and directed that drawings and data be forwarded to the Building and Safety Department for final checking and issuance of a building permit.

Call for bids and construction of the dual indoor-outdoor plunges, to be known as the Harbor Natatorium and Swimming Pool, will be issued by the Commission immediately following approval by the Building and Safety Department. George Hjelle, general manager of the Recreation and Park Department, said.

The pools will be jointly financed by the Board of Education and the Recreation and Park Department, with the city's share being an allocation from the 1947 bond issue for additional playgrounds, swimming pools, and other recreation facilities.

Under the arrangement entered into by the Board of Education and the Recreation and Park Department, the pools will be used for school swimming classes during the fall, winter, and spring, and by the Recreation and Park Department for its "Learn-to-Swim" classes, public recreational swimming program, and special aquatic events.

Designed by Architect Ralph J. Brooks, each of the pools will be 60 feet wide and 74 feet long. The outdoor pool will have a deck area of 9240 square feet, while the indoor plunge will have a deck area of 4960 feet. The aquatic center's auxiliary facilities will include a manager's office, foyer, showers and dressing rooms, check

"Howdy, Mrs. Van, just dropped by to remind you that next week is GET ACQUAINTED WEEK, October 25-31."

Longren Partner Buys Newspaper

Purchase of the Dunsmuir (Calif.) News by Chapman Wentworth, a partner in the Longren Aircraft Co., from Mr. and Mrs. Orlo H. Mohr effective Oct. 1, was announced this week.

Wentworth, former reporter and columnist on the Memphis (Tenn.) Press Scimitar, was an aeronautical engineer at Longren prior to joining the Memphis paper two years ago. He is still a partner in the local aircraft firm and is also interested as a partner in Wentworth Ranches, operators of extensive olive orchards near Oroville, Calif.

The sale was announced by A. W. Steves & Co., San Francisco brokers.

Jewelry, Clothing Gone After Teen-agers' Party

Articles of clothing and jewelry worth more than \$100 were reported missing by Mrs. Naomi E. Huff, of 2005 Cabrillo Ave. early Sunday morning following a teen-age party at the apartment, according to Torrance police.

Among the missing articles were two skirts, a lady's suit, a blouse, and several pieces of jewelry, Mrs. Huff told police.

HARVARD PROF
President John Quincy Adams once taught rhetoric at Harvard.

SNAPPER

My fingers were so cold and stiff I could hardly click the shutter at this lady and the surprise she shows is nothing to what her old man will feel when he goes to the refrigerator for that 1st & 2nd snack. When I got back to the store the boss, who had sent me on the assignment, asked if I was cold and hungry. He looked kind of funny when I told him no, just cold.

Say, there's more fun in amateur photography than in almost anything. Just look at the fun I have—then come in and let me get you started with some inexpensive equipment. For instance, here is the Kodak Developing Kit.

See you next week, SNAPPER
