

LINCOLN ONCE SAID:

# "I DON'T LIKE THAT MAN"

..I Must Get To Know Him Better!"

These words by the great humanitarian illustrate the true purpose of "Get Acquainted Week." For the only way to have a friend is to be one. By cultivating a friendship with our neighbors we are then able to understand their problems and share community interests. This leads to a better understanding of one another, enabling us to strive for a common goal—the building of a better and stronger community in which to live and work. The

Torrance Herald is proud to have had a voice in the call to "Get Acquainted" and will continue to strive to serve its community in the fullest sense of the word. That is, and always has been, our goal—to serve our readers with a complete and accurate coverage of local news and to provide the best possible advertising medium for the merchants and the people of Torrance.
