

Carson Cracker Barrel

# Young, Old Attend Carson St. Carnival

By GWEN BARKAN  
FA 8-0359

Well, the witches and ghosts have been appeased for another year and the so-called "holiday season" is nearly upon us. Halloween is the favorite holiday of the little folk hereabouts, and it's not difficult to understand why, what with carnivals and a chance to dress up for a day. Carson St. School and the PTA combined to make the Halloween Carnival there a real fun day for kids and grown-ups alike last Friday. Even the teachers dressed up for the parade and enjoyed the games afterwards, as PTA members sold hot dogs, doughnuts, punch, and managed the "ring toss," "fish pond," etc., to contribute to the fun. It's always so nice to be able to report that everyone who came to our door was well-behaved, and the holiday was celebrated in the right spirit. Some of the children of churches had given up sacks a few days before and collected needed pins, needles, thread and many other sundries to be sent to needy countries, a worthwhile project for all to consider in the future.

Birthday congratulations to Miss Melba Carroll, 130 E. 215th St., who celebrated her tenth birthday with a fine party last Saturday. Friends gathered to play games, eat cake and have a fine time. We are told that Miss Carroll is raising a rabbit as a joint project with her cousin Glen Meyers, who lives next door.

We also extend congratulations to Mrs. C. W. Wittenburg, who is celebrating her 21st (!) birthday on Wednesday. And speaking of Mrs. Wittenburg reminds me that she and Mrs. L. Martinez, president of Dolores St. PTA, were hostesses last Monday morning when the presidents of the 17 grade schools of the Gardena-Wilmington PTA Council met for their monthly meeting at the Martinez home.

After a business meeting Luncheon was served all felt benefited by the exchange of ideas.

Of all the streets in the neighborhood, 220th seems to be the favorite with the stork! Another new baby is reported down there, and this time it's little 20-month-old Stevie Edwards who has a new brother. Robert Keith Edwards joined the family of Mr. and Mrs. Dale Edwards, 155 W. 220th St., last Sunday. Grandparents Mr. and Mrs. E. M. Edwards are also rejoicing with the new arrival.

One of the nicest recitals ever held in the neighborhood was presented at the Robert E. Hise home, 603 W. 214th St., Monday evening when Mrs. Lois Balsley, piano teacher, had a group of her junior pupils play for parents and friends. The girls "spelled each other down," musically speaking, to see who would play first, with the result that all were relaxed when their turns came. Darling of the evening was little 5-year-old Steven Deering, who played the "Three Little Kittens" assisted by his teacher. The others who played were Joan McGluskey, Amy Inouye, May Ishihara, and Nancy O'Hara. Mrs. Balsley played the lovely Schultze-Evler concert arrangement of the "Blue Danube Waltz," which she will present at the Homer Töberman settlement Sunday. Refreshments were served, and the little pupils were complimented on their fine department.

# EXCLUSIVE!... Largest and Finest Meat Aging Plant in the West!

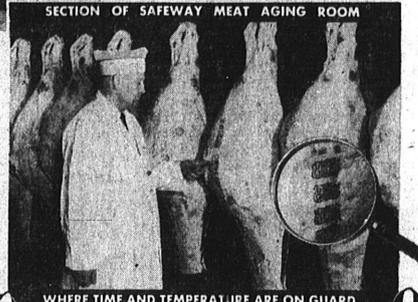

Operated by **SAFEWAY STORES**

**AGING PLANT IS ESSENTIAL PART OF FINE MEAT PROGRAM**  
Nearly 20 years ago Safeway inaugurated a revolutionary Five-Point Plan unconditionally guaranteeing you the finest eating meats at Safeway!

**HERE IS THE SAFEWAY PLAN!**

- 1-IMPROVED MEAT SELECTION. Only U.S.D.A. CHOICE BEEF, LAMB and the top grades of other meats are sold at Safeway. Beef, for example, comes from cattle raised in the Far West, then transferred to California Feedlots for ultra-scientific production of fine beef.
- 2-SCIENTIFIC MEAT AGING. Beef and lamb are aged under controlled humidity and tenderness to assure peak eating flavor and tenderness.
- 3-REMOVAL OF INEDIBLE TRIM. Surplus fat and excess bone are removed before weighing. You get more good-eating meat in every pound!
- 4-CONSTANT TEMPERATURE CONTROL. Up to the moment you buy, Safeway meats are protected by regulated temperatures. Even the delivery trucks are refrigerated.
- 5-FREQUENT DELIVERIES. Your Safeway market man receives only the amount of meat he expects to sell on a given day.

**GROWING WITH SOUTHERN CALIFORNIA!**  
At Vernon Avenue and Alameda Street, Los Angeles, is the finest, most modern meat aging plant in the Western United States. In 1936, Safeway built the first facilities designed exclusively for aging meats. Four years later, it was outgrown by the insistent demand for better, finer eating meats made possible by the Safeway 5-Point-Plan and a new, even more scientifically advanced plant was erected. The successful operation of this plan came through absolute control of every part of the procedure—giving you the best eating meats in the entire West from the moment a shipment of top quality government graded meats is received. Such absolute control is possible only because Safeway operates its own Meat Aging Plant!

WHERE TIME AND TEMPERATURE ARE ON GUARD

Here quality meats are held the full number of days necessary for natural aging processes to bring out the peak of goodness under rigidly controlled temperature and humidity. Any Safeway Store you shop at will have this same, wonderful, top eating quality meat for you to take home and enjoy!
