Tallies Only Score for SC In Rainy Game

Aramis Dandoy, Torrance's pride and joy of the gridiron, raced 88 yards to tally the only score for the University of Southern California during the Rose Bowl slush Saturday, and set a new long-run punt return record.

The score came midway through the second quarter, and with the Trojans behind by 14 points, Dandoy scooped in a punt by Ohio's Hubert Bobo on the SC 14, and started up-field.

He skipped by two Buckeye tacklers, and powered to the 50, where a teammate-tossed a fifty key block that sent Dandoy on his way. He stepped around Bobo, and made the tally.

Though this put the Trojans back into the game, the SC team failed to unbug itself from the mud on the turf and the Buckeyes on the move, SC lost, 20-7.

Dandoy was a sensational athlete during his recent days with Torrance High School Tartars. He is the son of Mrs. A. W. Lambrigger, of 2026 W. 238th St. He is married to the former Maureen Mathews, of South Torrance. The couple now lives in Los Angeles, with their child.

Annual Report Fish, Game Wardens List 1954 As Fair Sport Year

California's growing army of hunters and fishermen will remember 1954 as a highly successful outdoor sports year in some respects, and a disappointment in others.

But, according to the Department of Fish and Game, the outcome generally will be on the credit side of the ledger.

First, there was an all-time record deer bag, both in the coastal and Sierra areas. The take of 76,002 surpassed the 1951 bag, the previous high, by 11,000.

No figures are available on most species of fresh water fishing, but 1953 was a record year, according to post-audit surveys made by the Department. And with an increased plant of catchables in 1954, it appears that the catch will at least equal last year's 22,800,000 trout and 22,000,000 other species caught.

Ocean Fishing Good Final figures are not in for ocean fishing, but the total catch will be at least equal to last year's and probably better. Warmwater species such as bass of various varieties, catfish, bluegills, crappie and sunfish, went into the creel in increased numbers.

Salmon fishing to date may have fallen off slightly due to poor spawning conditions four years ago, but steelhead fishing was hot in most areas in 1954.

Ocean salmon fishing was good during the year, although the Kings averaged out a trifle smaller than last year.

Anglers also had a crack at the giant sturgeon, for which an open season was declared for the first time in 35 years, San Pablo Bay was the hot spot for these monsters. Biggest taken during the year was a 277-pounder.

Phasant Hunting Poor Big disappointment of the year was the phasant season, which was fog-bound in the Sacramento Valley "phasant bowl" for several days.

The kill on Department co-op areas was off 20 per cent from last year, on opening week end.

'Bluebird' Report Reveals Inside Dope on Horsehidors

Final batting and pitching averages for the Torrance Bluebirds during their 1954 season were released this week-end by Jack French, Bluebirds' manager. "We wound up in fifth place with an 11-8 record, in Southern California Municipal Summer play," French said. "It was a splendid showing, and it gave us

a chance to enter the Rio Hondo American League, the strongest league in the Los Angeles Association, in which we are now playing."

Clair Johnson wound up as top man percentage wise, with a .361 average for the past season. Playing in the most games, however, was Hank Camou, who came out with a .328 final in 18 games. He was top man in number of hits and runs department.

Leading base stealer for 1954 was Jim Murphy, with 4; top sacrifice hitters for the year were Jim Murphy and Jim Nady, with three each.

French came up with a resolution for the New Year, and it went like this: "Our resolution for this year is a hope that the citizens of Torrance will realize that the 'Bluebirds' are to them, as the 'Angels' are to the people of Los Angeles. We are their ball club—and hope to continue this year the great start we had in 1954."

Next fray for the merchants in their Rio Hondo play is Sunday at Torrance Park when they click with the Carmelita Provision squad.

Single Park District Urged by Supervisor Opposition to formation of small, independent park, parkway, and recreation districts was expressed last week by Supervisor Kenneth Hahn, who instead advocated the creation of one county-wide park district.

In some districts, he said, the tax rate is high as 25 cents, but that essential services could be provided for about "two pennies."

Southland Hot In Southern California mountain areas band-tailed pigeon shooting was superior, especially in the Mt. Pinos area. Hunters also had an opportunity to hunt a brand new quarry, the chukar partridge. The chukar proved himself a formidable adversary and relatively few were taken in the first season.

Up in the northeastern part of the state sage hens appeared in numbers great enough to warrant a two day season for the first time in several years.

Planting of catchable-sized trout reached an all-time high with 5,485,000 of them being planted from July 1, 1953 to June 30, 1954, in California streams and lakes.

And finally, hunting fatalities were reduced from 15 last year to nine this year, and for the first time in several years, there were no fatal gun accidents during the crowded phasant season.

3 LB. PKG.

RECIPE OF THE WEEK

Nut Caramels

1 cup Fat 1/4 teaspoon salt
1/4 cup butter or margarine
1 cup sugar
1 cup nuts
Heat milk and butter until butter melts. Mix sugar, syrup and salt in a 2-qt. saucepan. Bring to a boil over medium heat. Then cook to firm ball stage (see note) stirring often. Stir in milk mixture gradually so that sugar mixture does not stop boiling. Cook and stir until candy reaches firm ball stage again. Remove from heat and stir in vanilla and nuts. Pour into a well-greased 8-inch square pan. When firm, turn out on cutting board or waxed paper and cut into inch squares. Makes 3 dozen, or 1 1/2 lbs.

NOTE: Drop a tiny bit of the hot mixture into a bowl of cold (not ice) water. If the candy forms a firm ball and remains firm and round when you lift it out of the water with your finger, then the candy has cooked long enough. Be sure to take the pan off the heat while testing the candy.
