General Petroleum Sets Up Car Pool for Smoggy Days

Car pool transportation to operate when a Smog Red condition exists in the Los Angeles Basin has been organized by General Petroleum Corp. for some 3,300 of its employees. P. S. Magruder, executive vice president, informed Smith Griswold, air pollution control officer, in a letter Thursday.

"According to information we have now, the General Petroleum employees' car pool, when operating at maximum, conceivably could remove at least 800 cars from Los Angeles traffic during a Smog Red condition," Magruder said in his letter to Griswold. "A poll of our employees, now about 75 per cent completed, has revealed that at least 1300 of them drive to work alone in their own cars."

Magruder said the company now is providing car pool drivers with a list of the names and addresses of the company employees who reside in their vicinity and could ride in a group. "The company will inform each car pool driver that a Smog Red condition has been

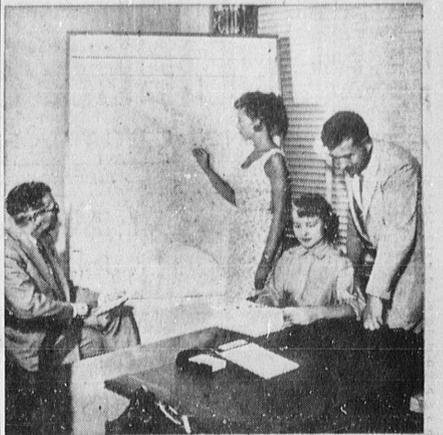

forecast for the following day," Magruder said.

In his letter, the oil company executive explained to Griswold that the car pool could be organized efficiently only for employees at the company head office building in downtown Los Angeles, its refinery at Torrance, and its plant and offices at Vernon where it employs 1100, 1200, and 1000 persons respectively.

Magruder said General Petroleum employees are being requested to participate in the car pool as good citizens of Los Angeles just as their company has conformed to air pollution regulations and also voluntarily adopted methods that might lessen the danger of contributing to smog.

Man Sought For Attack On Lomitan

Sheriff's deputies Saturday were seeking a man who accosted a woman sleeping in her car, fled as she awoke, and minutes later exposed himself to a Lomita woman.

A 46-year-old Lomita woman said she had fallen asleep in her car near the corner of Lomita Blvd. and Woodward Ave. and had awakened to find a man molesting her. She screamed and the man fled giggling all the time, she said. She ran to a nearby cafe to call her husband and a friend.

The trio noticed the man at the car again and he fled when the pair started to give chase. They chased him for several blocks, but lost him. In the lady's car, they found a gray suit coat.

About 20 minutes later, a lady in the 2300 block on Gale St. reported that a man with a pink and white flowered dress over his head appeared in her front yard with his pants dropped to his shoes. When she screamed, he fled, she told sheriff's deputies.

The man was between 20 and 30, the woman reported, weighed about 170, and about six feet tall.

Council Denies Permit to Fill Lake Property

A request by owner Ted Klotz for permission to fill 19 lots in the WALTERIA Lake area was denied by the City Council Tuesday evening on the recommendation of City Manager George Stevens, who said it would add to the flooding problems of the area.

Klotz had requested permission to fill the area saying he had a buyer for the property, which is located north of Pacific Coast Hwy. and east of Hawthorne Ave. Klotz told the Councilmen he would return with all the property owners in the area to press his case.

Reflections

FIRE! FIRE!

Fire can be avoided. Lock in the attic. Boxes with Christmas paper is a BIG RED DANGER SIGNAL. A grease spot, can of naphtha, on the Service Porch, a pilot light is a sure way to visit a hospital. Matches, curious child is an irritable combination—a Fire is certain. An auto, dry grass or timber; throw a burning cigarette out the window; it never fails. You're going to redecorate the inside trim of your walls; wipe off excess stain or paint with rags, wad them up, stuff them in a box; Firemen will pay you a visit. Milk cartons are impregnated with paraffin; throw one away behind a shed, in the sun. It'll cause the next fire you ever saw.

Don't blame the flame. Co-operate with our Fire Department; those men are anxious to save your life. P.S. When you clean your attic, clean your mind—investigate funeral procedure, first hand. We'll tell you facts.
