

Love has a thousand faces

—a mother with her new-born child

*—a child's concern for
an injured playmate*

*—a family called quickly together
to help one member in distress*

—a stranger given sympathetic care

—a loved one returned to health

Every one of these faces, and more,

shows itself daily in a hospital.

That's why we hope sincerely
that the new Torrance hospital
planned by the Little Company of
Mary soon will be under way.

Torrance has grown—so have
its needs. As one of the Torrance
industrial family, we're fully
confident that, with all industry
helping, this hospital can be
serving Torrance next year.
