Supervisor Hahn Reports Good Progress on Channel Work

Unusually good progress is being made on the reconstruction of Dominguez channel along a new alignment between Denker and Vermont avenues, with the contractor planning to complete the job by next Jan. 1, eight months ahead of the contract time limit, Supervisor Kennet Hahn reported this week.

To illustrate the progress, he pointed out that although work on the project was started only two months ago, half of the excavation has been already completed. At the present time the contractor has removed more than 180,000 square yards of earth which has been used to fill in slough areas along the right of way.

The project also includes the extension of Normandie Ave., bond issue storm drain from its present outlet north of Artesia to the new channel.

The new channel will have concrete sides and bottom and will be 18 feet deep and 75 feet wide on a right of way of 125 feet.

The contractor, Guy F. Atkinson Co., has crews engaged busily building forms for the concrete work, which will be put in place as soon as the excavation work has been completed, so that the job will be expedited.

Supervisor Hahn pointed out that if the present rate of progress is maintained, this section of this new improved channel reach will be in operation in time to provide full protection during the coming winter.

Aids Flood Control

"This is one of the most important improvements ever made to Dominguez channel and it should assist greatly in providing flood control and protection to people of Gardena, Torrance, and adjacent areas," Supervisor Hahn stated.

He pointed out that the project is the first in a program which will ultimately improve the entire length of the channel from the harbor at San Pedro to 120th St. and Crenshaw Blvd., at a total cost of \$19,000,000.

The new channel alignment is south and parallel to Artesia Blvd., and eliminates two crossings of Artesia, one at Halldale Ave., and the other at Vermont.

Two New Bridges

Construction on the new alignment requires the building of two new bridges across the channel at Normandie and Vermont.

'Signature of God' Named Sunday Topic

The Rev. Truman M. Jolley will preach on "The Signature of God" at First Presbyterian Church, 1842 Gardena Blvd.

Senior choir will sing "Lovely Appearance" by Gounod, Grace Gravesen soloist, with Virginia Davis at the piano and Florence Jolley at the organ. Virginia Davis and Florence Jolley will also play an organ and piano duet, "Moonlight Sonata" by Beethoven. Grace Gravesen, Gilda Keller and Jeanne Wilkens will sing "Children of the Heavenly Father."

Trustees will meet Sunday at 7:30 p.m., according to William O. Wilson, chairman.

The Vacation Church Program will be Thursday, July 18 at 7:30 p.m., according to Mrs. William Dunston and Mrs. Ernestine McKinney, co-chairmen.

Gas Supply Story Told To Cleaners

Although a million and a half homes use natural gas, the supply is available even on the coldest day. That is the aim, the pledge, and the record of the Southern California Gas Co. as told to members of the South Bay Area Dry Cleaners Assn. at a recent dinner meeting.

John Baird, special consultant to the gas company, underscored this fact in his talk, "Laughing Gas." Baird was featured speaker at the group's monthly meeting at the Plush Horse.

He was introduced by Cy Bowen, president of the South Bay Dry Cleaners Assn.

Baird related many humorous anecdotes about gas company people and their customers, pointing up the human element in the serious business of supplying gas service to this constantly expanding economy.

It is very seldom that businessmen have the opportunity to hear a speaker who can discuss business transactions with a sense of humor, Bowen said.

"Mr. Baird has this rare gift, and the 50 people who attended the dinner meeting thoroughly enjoyed the program," he added.

Only GAS can keep your family as HOT WATER HAPPY as this shower after shower after shower!

NEED A NEW WATER HEATER?

1. CHOOSE GAS! 98 out of 100 have... because Gas heat water three times faster—easily kept ahead of washing machines, dish washers and growing families. Gas costs less, too!
2. CHOOSE THE RIGHT SIZE! Too small a heater gets overworked—doesn't last as long nor serve you as well. Your plumber's approved sizing chart shows the proper size heater for your family.
3. CHOOSE QUALITY! One good way to sell a quality Gas water heater that won't rust is to look for the Verified Long Life Seal shown here... or insist on a ten-year warranty when you order. You may buy on convenient terms— even arrange credit and financing over the phone with your plumber.

GAS heats water 3 times faster ... costs less, too!
