

ACES MEET . . . Former German Luftwaffe ace and one of the first of the jet pilots, Capt. Curt Heindenreich, (right) adjusts his helmet prior to supersonic flight in F-100F Super Sabre at Palmdale. North American representative, Jim Brooks, also former World War II ace who fought Heindenreich's squadron over Austria and Italy, explains oxygen system. At left is German newspaper correspondent Peter Von Eckhardt, who also flew in Super Sabre.

### \$2,000,000 in School Bonds Will Be Sold

Bids on \$2,000,000 par value Torrance Unified School District bonds will be opened by the Board of Supervisors at next Tuesday's meeting, according to Supervisor Kenneth Hahn.

Funds derived from the sale will be used in constructing the new West High School and on a number of other pending school projects in Torrance.

At the time the bids are opened, County Treasurer Howard L. Byram will be standing by to immediately analyze all bids with officials of the school district so that sale of the bonds to the bidder offering the lowest interest rate can be consummated that same day, Supervisor Hahn said.

Bonds will be issued under the date of Nov. 1, in accordance with the request of the Torrance Board of Education, relayed to the Board of Supervisors by Dr. J. H. Hull, Torrance superintendent of schools.

### Mothers Will Aid Program At McMaster

Mrs. J. Thistle has been named temporary chairman of the newly formed McMaster Park Mother's Club, which will help the park directors with special events.

The club meets the second Tuesday of the month at 1 p.m. at the park. The mothers now are planning a Halloween party for the park. They also will explain the park program to residents.

A full fall and winter program is planned at the park, according to Les Breitenfeld, area director of the Torrance Recreation Department.

Square dancing for elementary school students will get underway shortly, he said, and a pre-school program, featuring games, singing, and folk dancing, will be led by Carol Cooper, park leader.

Football for the boys will be underway in a few weeks. Boys living in the north Torrance area may sign up for teams at the park.

### OPEN HOUSE PLANNED AT NIKE SITES

All Nike guided missile sites, including the Torrance facility, and anti-aircraft gun sites in the Los Angeles area will hold open house this Thursday, the 40th anniversary of the Army Air Defense Forces.

The defense installations will be open from 10 a.m. to 4 p.m. The Torrance facility is on Crenshaw Blvd., just east of Torrance Airport.

Other Nike sites in the area which will be open include Pt. Fermin Battery site, north of Pt. Permin Park, San Pedro; Palos Verdes site, just above Marineland; and Playa del Rey site on Coast Blvd. just south of Manchester. The Playa del Rey site is the only double Nike site on the coast, with 24 launching units.

Ninety millimeter gun sites to be open include Manhattan Beach sites at Highland and Rosecrans and Compton and Sepulveda.

### High School Requirements Change Eyed

A revision of high school graduation requirements in Torrance schools will be acted upon by the Torrance School Board at its next meeting.

The new policy would add a requirement that each student maintain a satisfactory citizenship record and spells out required courses required for graduation. It received a first reading at the last board meeting.

Assistant Superintendent A. N. Posner said the change represents a clarification of the old requirements, which were somewhat vague on these points. It reflects no change in policy, he said, but spells out the requirements so that the city's three high schools will follow a uniform practice.

The new policy provides that:

1. All students who entered high school after September, 1955, must get 220 credits for graduation and must be enrolled in at least four classes

each semester.

Required courses include one year of science, three years of English, three years of social studies, and four years of physical education. Driver education is included in one of the social studies classes. Required classes include 120 credits, more than half of those needed for graduation.

### Turn Signals On New Cars

Lamp-type flashing turn signals will be required on certain vehicles first registered after Jan. 1, 1958, according to information released by the California Highway Patrol.

"The new law was passed by the 1957 Legislature," stated Patrol Commissioner B. R. Caldwell, "and provides that the following vehicles first registered on or after Jan. 1, 1958, must be equipped with lamp-type flashing turn signals of a type approved by the California Highway Patrol.

1. Passenger vehicles except motorcycles and motor-driven cycles.
2. Trucks and truck-tractors.
3. Trailers or semi-trailers having a gross weight of 6000

pounds or more.

"This law is not retroactive and does not prohibit the use of hand and arm signals or semaphore-type signals on older vehicles," Caldwell emphasized. "While these older type signals will still be permitted on vehicles registered prior to Jan. 1, 1958, the added safety features of the flashing turn-signal lamp must be recognized."

Special mobile equipment, implements of husbandry, pole or pipe dollies, and auxiliary dollies are exempt from the requirements of the new law.

**GAS GENERATED**

An auto motor needing repair often generates an excess of carbon monoxide gas.

### Namesake Gives Same Opinion on Week's Question

A recent contributor to the Torrance HERALD'S "Penny for your Thoughts" column will testify that the question and answer series is well read—with a reader even in Salt Lake City.

Irene Walgren, 803 Acacia St., received a letter from an Irene Walgren Herrick, who lives in the Utah City.

Mrs. Herrick noted the similarity in names when her brother who lives in Torrance forwarded a clipping of the column.

She wrote asking if Mrs. Walgren's parents came from Denmark as hers did and issued an invitation to the Torrance woman to visit her in Salt Lake City.

In addition, she added the following postscript:

"Incidentally, I too think teachers should use psychology on children rather than spankings."

Mrs. Herrick referred to Mrs. Walgren's answer on school discipline printed in the HERALD recently.

### Fences Set At Sea-Aire Golf Course

Fences for two dangerous holes at Sea-Aire golf course was authorized by the City Council Tuesday night, as it received an apparent low bid of \$1232 from the Anderson Fence Co., Los Angeles.

Several residents around the course have complained that duffers have lobbed golf balls into their yards and one woman reported that a plate glass window was broken.

The fencing approved by the council would be 24 feet high at Holes 1 and 6, with galvanized poles which would allow a fence 40 feet high if needed later.

According to the Recreation Department, 971 persons visited the course during September, its first month of operation. These included 557 adults and 414 children, bringing in a total revenue of \$549.

### Guild Meeting Set Tuesday

The Women's Guild of Sea-side Community Church, 23th and Ocean Ave., will hold its monthly meeting on Tuesday at the church.

Miss Rebecca Reuben, secretary to the Director of Indian Work for the Southern California Council of Churches, will discuss the work being done by the Council in helping Indians moving from the reservations to the Los Angeles area. She is herself a member of the Nez Perce tribe.

Mrs. Roger Schriefer, social action chairman, said that a short business meeting would be held and refreshments served.

### Supervisors Honor Fiesta Skipperette

Natty and nautical Frances McHale, San Pedro Fishermen's Fiesta Skipperette, and her two mates, Lynn Husted of San Pedro and Juanita Gomez of Wilmington, Tuesday received a proclamation from the Board of Supervisors hailing the Fishermen's Fiesta to be held in San Pedro today.

Presented to the Board of Supervisor Burton W. Chace, the three beauties heard the Board approve Chace's resolution saluting Los Angeles Harbor fishing industry and calling on all citizens to attend the festivities of the Fishermen's Fiesta.

Chace's resolution pointed out that more than 1100 commercial fishing boats manned by 3700 fishermen ply the waters of the Pacific to meet the demands of the fish industry, and the Harbor now produces one-third of the canned and fresh fish consumed in the Nation.

Chace's resolution stated that fish canning in San Pedro is recognized as the headquarters for the greatest fish cannery center in the Nation.

and employs from 7500 persons.

The resolution congratulated the fishermen and others in the industry for taking time out between the fishing season to repair their equipment and "pray for continued blessing of the Almighty."
