MOTORIST PINNED HALF AN HOUR

Auto Misses Curve, Flips

William E. Driever, 25, of 1860 Torrance Blvd., apparently failed to negotiate a curve on Walnut St. near Sepulveda Blvd. Thursday.

As a result, his car roared 84 feet through soft dirt, hurtled a three-foot embankment, and slid 74 feet on its top after knocking down a railroad switch lever and finally smashing against a railway semaphore's concrete base.

Trapped 30 minutes under the car before rescuers could unpin him, Driever was taken to Harbor General Hospital for treatment of a broken arm and possible internal injuries.

In other accidents, two persons received minor injuries. Erm Greene Sullivan, 58, of Los Angeles, was taken to a private physician when her southbound car collided with one driven by Albin Michael Nosac, 33, of 4338 W. 154th St.

The accident occurred Thursday at Crenshaw Blvd. and 190th St.

A car driven by Kreigh Vander Phym Jr., 18, of Manhattan Beach, reportedly jumped the curb at Del Amo and Henrietta St.

Treated for minor injuries was Paula Cool, 14, of 2201 Reynolds Dr.

Frightened Prowler Flees

Screams of a Torrance woman apparently frightened off a prowler here Thursday.

Betty Revell, 17727 Atkinson St., told police she was accosted by a prowler as she was putting her car in the garage. When she screamed the man fled. He was described as about 6 feet, 150 pounds, and wearing dark clothing.

COED ASKS 20 TO PARTY; 400 COME

All available sheriff's deputies were called out Saturday to rescue a distraught El Camino College co-ed who invited 20 guests to her Rolling Hills home. More than 400 unruly people showed up.

Sherry LaTorre, daughter of Torrance businessman Joseph LaTorre, issued an SOS as a mob overflowed her home, yard, and swimming pool at 37 Crest Rd. Arriving deputies found cars parked for a half-mile on each side of the house. Considerable damage was done to the house and lawn.

Voters May Get Absentee Ballots Now

Absentee ballots for the special election in Torrance on Oct. 19 may be obtained now through Oct. 24. City Clerk A. H. Bartlett said yesterday.

Applications for absentee ballots must be made in writing to the City Clerk and the voted ballot must be returned not later than six days after the election, Bartlett said.

Persons expecting to be away from their polling place on Oct. 29 may apply for the ballots.

Jury Agrees On Apartment

Plans for an eight-unit apartment building to be constructed for Peter Xenades, at 212 Palos Verdes Blvd., have been approved by the Hollywood Riviera Art Jury.

Laurence C. Wing, art jury chairman, said today plans for three residences also were passed. They were for K. O. Dean, 357 Calle Mayor; John Johnson, 309 Avenida Atezada; and R. A. Johnson, 825 Calle Miramar.

Three additions to Riviera homes received an okay by art jurors. Two were for family rooms for W. B. Augur, 1252 Calle De Castellana, and Clifford E. Ferrel, 961 Calle Miramar.

Shrine Stag Set Thursday

The South Bay Shrine Club will open its season with a fall stag this Thursday at the Palos Verdes Country Club, 3301 Via Campesina, Palos Verdes, according to President Richard Conroy.

Festivities will begin at 6:30 p.m., with dinner at 7:30. Entertainment Chairman Robert J. Rosevear has promised "finest entertainment available."

All Shriners, regardless of Temple affiliation, are invited. Reservations may be made by calling Conroy or Secretary Robert Lee Parson.

Two Cases of Measles Reported in Torrance

Two cases of measles were the only diseases reported in Torrance during the week ending Oct. 5, according to the County Health Department.

A total of 12 cases of disease were reported throughout the area, including epilepsy, gonorrhoea, measles, mumps, scarlet fever, and syphilis.

Rivets Reports

Despite plenty of clouds today, there probably won't be a repeat of the .52 inches of rain Torrance received on Friday.

Rivets, HERALD weather d.o.g., reported that, as he made hasty preparations to repair the roof of his doghouse, the sun will shine part of the day.

High and low temperatures this week include Thursday (71-58); Friday (74-55); and Saturday (73-54).

Chace Aid for Freeway Asked

Supervisor Burton Chace's support in having the Harbor Freeway completed all the way to Pacific Coast Hwy. has been requested by the Carson Civic Betterment Assn., according to President J. Rome Gateley.

At its Tuesday meeting, the group went on record in opposition to termination of the freeway at 190th St. after hearing a report from two California Highway Patrolmen that the accident hazard would be greatly increased if the freeway ended at 190th.

For the first eight months of the year, on Figueroa St. between Lomita Blvd. and 208th St., the ratio of fatalities to accidents was 1.9-9, compared with an average of 1-15-50.

The CCBA also asked for a gravel sidewalk along Figueroa St. near 234th St., where children must cross to get to 232nd Pl. School. Mothers recently have been picketing the area also seeking reduction of the 50-mile speed limit and erection of a stop light. When rain falls, the children must walk on the busy highway, instead of alongside the road.

Opposition to dumping of wet garbage at any public dump in the area also was voted by the group, and the Regional Planning Commission will be notified of this stand.

Open House Slated Sunday By Workshop

The Children's Workshop of The Workshop of Creative Living, Inc., will hold open house Sunday from 2 to 5 p.m. at 24242 Hawthorne Ave.

Mrs. Helen Spencer, teacher-director of the nursery school, will welcome friends of the workshop, along with Mrs. Dorothy L. Law, director, Mrs. Austin Sanderson, chairman, and the teaching staff—Mrs. Ray Johnston, Mrs. Charles Barrett, Mrs. Earl Downer, and Mrs. Sanderson. Mrs. Law will also welcome visitors and members of the "Family Living Education" classes held on Monday and Friday mornings.

Like the whole workshop, children's nursery is non-profit. It is dedicated, according to Mrs. Law, to developing attitudes of co-operation, sharing, and appropriate self-expression. The experiences and the atmosphere of the school encourage the children to grow to more creative ways of meeting their challenges.

Arthur C. Lytle, Jr., was recently elected to serve as president of the Workshop for the next two years, taking over the office from Austin Sanderson, past president. Chosen to serve with him were Lloyd W. Robbins, vice-president; Mrs. Lloyd Robbins, secretary; and Mrs. John P. Walt, treasurer.

Robert A. Oehler and Mr. Sanderson have been added to the board of trustees. Committee chairman are: Mrs. Sanderson, children's workshop; Mrs. Peggy Randall, hospital; Mrs. Johnston, finance; Mrs. Arthur C. Lytle, Jr., newsletter; and Pat Smith, publicity.

A 'GOOD NEIGHBOR' . . . Al Turner (left) yesterday received the "good neighbor" award for 1957 at the annual YMCA Good Neighbor Breakfast. He is shown receiving the award from Ralph Morris, breakfast chairman, as Emcee Bill Evans looks on.

Turner Named Torrance 'Good Neighbor' for '57

Al Turner, long-time member of the YMCA board of managers, and youth worker, yesterday was named Torrance "good neighbor" for 1957.

The award was made at the annual YMCA Good Neighbor Breakfast at the Torrance Civic Auditorium, which brought out a crowd of some 3300 persons who ate pancakes and sausages and sipped orange juice, coffee, and milk. It was the largest attendance ever.

Youth Worker

A member of the local YMCA board of managers from 1948 until this year, Turner is also a life-time member of the PTA, a member of the Optimists Club, and a member of the Episcopal Church. He has been quite active in all types of youth work, particularly football.

Turner, who lives with his wife at 1008 Acacia Ave., is a supervisor with Mayfair Creamery.

Runners-up for the award were Mr. and Mrs. Lew Broach. More than 5000 tickets to the affair were sold, with about 3300 persons attending the breakfast from 6:30 to 11 a.m., according to Chairman Ralph Morris.

Winner of the grand prize—a portable television set—was Glenn Thomas, 4144 W. 173rd St.

Boy Honored

The boy who sold the most tickets—Reed Clawson—also received a portable television set, whole runner-up salesmen were Rex Whisman, Jim Cucci, and Billy Herman.

During the morning, entertainment included the Torrance Area Youth Band and the Mothersingers from Fern-Greenwood and Steele Schools. Bill Evans served as master of ceremonies.

Absenteeism Up Slightly At Schools Here

Absences were running a little higher than average at a few Torrance schools, but there seems to be no general outbreak of Asiatic Flu here.

A couple of classrooms at Walteria School were decimated by flu or something similar. Principal Don Mullaney said that all children in affected rooms were checked closely and any one who showed signs of fever or illness were sent home to protect other youngsters.

A great many cases of "sniffles" also were reported.

Mother, Son Injured in 2-Car Crash

A mother and her son were injured early Friday morning in a two-car collision at 228th and Figueroa Sts., according to the California Highway Patrol.

The victims were Mrs. Sally B. Smith and her son, Ricky, 4, 1327 W. 227th St., who were taken to Harbor General Hospital suffering multiple cuts and bruises.

Their auto, eastbound on 228th St., collided with one driven by Stanley C. White, Compton. Mrs. White, who had just pulled out after a stop, said she didn't see the southbound auto. There was major damage to both cars.

Teachers Said 'Goodbye', Should Have Said 'So Long'

When Miss Karin Waterman and Charles Jenkins left their teaching jobs with the Air Force Dependents' School in Ramstein, Germany, last June, they bade each other goodbye, never expecting to meet again.

Their surprise was great, therefore, this fall when they walked into Walteria School for a pre-school faculty meeting to discover that they were again to be teaching colleagues. Miss Waterman is originally from Downey, while Jenkins taught for five years in Oregon before going overseas.

Small World

"It's a small world," they murmured simultaneously. Miss Waterman teaches a combination fourth, fifth, and sixth grade class, while Jenkins is a seventh grade teacher.

Both went to Europe under the teaching program because they wanted to travel and felt this was a good way to see the world. Miss Waterman taught one year in Toul Rosieres, France, before coming to Ramstein. Jenkins taught two years at Ramstein, and one year at Bordeaux, France.

Colleagues Meet

Jenkins was just as surprised to learn that another teaching colleague during his first year at Ramstein, Henry Behrens, is vice principal at Perry School.

Both Jenkins and Miss Waterman (Continued on Page 12)

A Penny for your Thoughts

Amidst conflicting claims in the eternal battle of the sexes, The HERALD photographer posed this question:

Who has the easier job—the housewife who stays home and cares for the children or the husband who has a responsible position in a business or industry?

Mrs. Gil Derouin, 1625 Beech St., restaurant hostess:

"I believe the housewife has the easier job, because it is on a 24-hour basis and it is, in most cases, a family project with everyone doing his part."

Mrs. Ralph Morris, 312 Via Pasqual, housewife:

"The husband works harder. However, his job is usually much more interesting. The wife's great problem is not to die of boredom and loneliness, especially the young wife."

Leo Wagner, 20520 Raymond, electrician:

"The husband has the easiest job because all he has to do is get up, get to work, and come home. The wife has to worry about the children and all the household chores. I take my hat off to the true wives. God bless them all."

Mrs. W. D. French, 5305 Carol Dr., housewife:

"My husband is a chief engineer in the merchant marine and my job is a lot easier and less responsible than his. He is gone a lot so I have less to worry about than most women. Most of my business is chauffeuring my three boys to their activities."

Phil Hoffman, 1215 Fern Ave., electronics engineer:

"I think the wife probably has the hardest job—taking care of four young ones. I have one thing to worry about. She has four. I have tried it when she was sick and I wouldn't trade."

C. A. Stewart, 1314 Madrid Ave., brick mason:

"I think the guy that works has it a lot easier. If he's had any experience with kids, he knows what it is. I'd much rather be occupied at my chosen vocation."

"I think the guy that works has it a lot easier. If he's had any experience with kids, he knows what it is. I'd much rather be occupied at my chosen vocation."

"I think the guy that works has it a lot easier. If he's had any experience with kids, he knows what it is. I'd much rather be occupied at my chosen vocation."

"I think the guy that works has it a lot easier. If he's had any experience with kids, he knows what it is. I'd much rather be occupied at my chosen vocation."

"I think the guy that works has it a lot easier. If he's had any experience with kids, he knows what it is. I'd much rather be occupied at my chosen vocation."

"I think the guy that works has it a lot easier. If he's had any experience with kids, he knows what it is. I'd much rather be occupied at my chosen vocation."

"I think the guy that works has it a lot easier. If he's had any experience with kids, he knows what it is. I'd much rather be occupied at my chosen vocation."

"I think the guy that works has it a lot easier. If he's had any experience with kids, he knows what it is. I'd much rather be occupied at my chosen vocation."

"I think the guy that works has it a lot easier. If he's had any experience with kids, he knows what it is. I'd much rather be occupied at my chosen vocation."

'T'S A SMALL WORLD' . . . That's the sentiment that Charles Jenkins and Miss Karin Waterman are expressing. The two teachers were colleagues at the Air Force Dependents' School in Ramstein, Germany, last year and were startled to find on the first day of school that they were again to be colleagues—this time at Walteria School. He is originally from Oregon, while she hails from Downey.
