"We paid rent on our house before we built it"

A young couple in our town have just moved into a brand-new, wonderful home of their own. From their savings, they used \$2500 for the down payment and \$1000 more for new things for the house. A while ago, they hit on a smart idea. Every time they paid rent they put an amount equal to a quarter of the rent into their savings account and ear-marked it for their new home. Earnings on their savings helped their account grow. Then came the happy day when they could buy the home they wanted.

The place they chose to save was our Insured Savings and Loan Association. Here, generous dividends, compounded, and friendly cooperation make any savings plan work more quickly, more easily. Savings are insured up to \$10,000 by the Federal Savings and Loan Insurance Corporation, an agency of the U. S. Government. Why not stop by and start saving with us today for a home of your own or any of the things you want?
