

### Poster Contest Winners From Area Revealed

Two Torrance High School students have won prizes in the 33rd annual international poster contest sponsored by the Latham Foundation for the Promotion of Humane Education, headquarters at Oakland.

Winners were Judith Raynor, first prize, group three; and Wayne Haslam, third prize, group four.

Those winning certificates of merit were Florence Crenshaw, Elaine McCusker, Peggy Edwards, Jon Hunter, Tom Hubbard, Eleazar Ybarra, Sue Crumm, Sharleen Thomas, Phyllis Wallenmeyer, Rosemary Hill, Gay Maupin, Ronald Coleman, Tom Kling, Betty McMicken, Jim White, Norman Hampton, Neil Dailey and Judy Strayhan.

More than 26,000 school children and professional artists made posters for this contest. Posters were submitted from all parts of the United States and 22 foreign countries.

### Home Buyers Studied by Plasterers

Results of a study conducted over the past 90 days by the Southern California Plastering Institute was announced today by James Goodman, chairman of the board of trustees of the Institute.

"The study indicates that more than 75 per cent of the people buying homes are concerned first with the quality of the homes and second consideration is price," said Goodman.

"This is encouraging news and means that Southern California builders, who have established a reputation for building the finest homes in the country, will not resort to a lessening of quality to insure sales volume. It is impossible for builders to lower the price of homes without sacrificing quality."

"It is this fact, and the fact that Southland home buyers insist on quality construction, that helps Southern California builders maintain the high quality which has established them as leaders in the field. It is the determination of the Southern California Plastering Institute to insure the home buyer's trust by continuing to maintain excellent standards of building quality even in the face of certain rises in costs," the official concluded.

### Local Steel Plant Wins Merit Award

The highest award of the National Safety Council, the award of honor, has been earned by Bethlehem Pacific Coast Steel Corp.'s Los Angeles plant, according to an announcement by company officials.

It was also announced that Bethlehem Pacific's Fabricating Works at Torrance has received the Council's Award of Merit. Both awards were earned during 1957.

The award of merit, earned by the Torrance Works, is presented in recognition of noteworthy safety achievement. It is the second highest award presented by the Council.

A total of 39 awards were made to the subsidiary companies of Bethlehem Steel Corp. This is seven more than was received last year and is the largest number received by Bethlehem operations since the present National Safety Council award system was inaugurated in 1951.

### Alums Reminded Campus Paper Now Available

Former students of El Camino College interested in receiving the college Alumni News were reminded today that copies will be made available to them on request.

"We are happy," Merl F. Sloan, director of student personnel announced, "to keep former students informed of campus developments and alumni activities. A post card requesting the publication will be sufficient to place interested parties on the permanent mailing list. We do request up-to-date addresses, however."
