WHAT'S DOING
R. S. Pyle, your Telephone Manager in Torrance

With more and more cars on the road, safe driving is a big part of any telephone man's job. Take our telephone installers for example. Each installer takes a special course in "defensive driving" before he gets behind the wheel of any telephone company car or truck. And to make sure he doesn't forget the things he's learned, he takes a check-up ride periodically, and a complete driving test every 2 years. What's more, he even has his eyes tested every 3 years. Other telephone people who drive company cars also get training in "defensive driving". This extra care helps us to be better drivers and do our part to make the streets safer for everyone. And we believe we serve you best when we serve you safely.

BIG DAY FOR THE "MALE PARENT"

Father is given only a passing nod in the dictionary as "a male parent," and it's nice to see the affable old gent come into his own once in a while.

This year it's Sunday, June 21, which has been designated as the 24 hours set aside annually to give the "male parent" a little recognition.

Of course, there's always his birthday, but everybody has those and in some cases they're not too eagerly anticipated.

However, June 21 is dad's day alone, and it's generally accompanied with pipe, slippers, a gift, and maybe even a ball game.

Along the gift line, we at Pacific Telephone were thinking that dad might be yearning for an extension telephone all his own in the garage, where he does his putting, or in the den, where he gets his relaxation.

At any rate, you might give him a ring just to say it's nice to have him around.
