Home Town Boy

Any way you look at it, your home town industries mean a lot to you and your town. They are tied right in with the well-being of your community. In more than a hundred Southern California communities Pacific Electric Railway is a home town partner too, linking local businesses with markets and supply sources everywhere.

Your food, your clothing, your automobile and many other things that keep life going are brought to you by the railroad. Add in the raw materials on which local industries operate and the finished goods they ship to market and you see the railroad doing an essential job in your community—providing employment, paying taxes, attracting new industries and serving you every day with a modern transportation system.
