GRANNY
Dear Granny: I'm printing it—but there's nothing I can add to your beautifully worded letter—except my thanks for having written it.

Dear Ann: Our youngest daughter who is 16 had her first date last night with a fellow who works in the drugstore on the corner. This is where she met him.

When she introduced him to her father and me, he just stood there with his thumbs hooked in his pockets and grunted. "Hi." After he left, my husband said to me, "Did you notice anything odd about that kid's hair?" I had to admit it looked as if he had had it bleached blonde.

This morning I went to the neighborhood beauty shop for a permanent. I asked the operator if many men bleached their hair these days, and she said, "Yes—in fact the young fellow at the drugstore comes in one evening a week."

I knew then my husband was right. I hate to think of our daughter going with a young boy who is as foolish as this. Should I tell her?—UNDECIDED

Dear Undecided: Say nothing. Often when Mom starts to knock a fellow, daughter feels compelled to defend him in order to justify her own "judgment." Far better if she discovers on her own that he's a jerk. From your description, it shouldn't take long.

To learn how to keep your boy friend in line without losing him, send for ANN LANDERS' new booklet, "Necking and Petting—And How Far to Go," enclosing with your request 20 cents in coin and a large, self-addressed, stamped envelope.
