YOUR PROBLEMS

by Ann Landers

"You Could Get Yours Tomorrow"

Dear Ann Landers: I'm a lonesome widower, 58, in excellent health and could retire if I wanted to. I continue to work because it keeps me alive. I'd shrivel up and die if I had no office to go to every day.

The question I want to ask is an unusual one. I've been reading your column for over four years and I would like to know how I can get myself into some of those interesting jams that people write to you about. Nothing like that ever happens to me. Thanks for any help you can offer. — STATUS QUO

Dear Status: Every living human is a potential candidate for this column. Relax, Dad — you could get yours tomorrow.

Dear Ann Landers: I'm so upset I can't think straight. Please try to make some sense out of this letter. If I wait until morning when my head is clear I'll never mail it.

I'm 19 and share an apartment with a cousin who is 23. We are both beauty operators living away from home. My folks let me leave Manitowoc and go to Minneapolis to work because they had so much faith in my older cousin.

Well tonight I left the movie early because I had a headache. When I got home I walked right in on my cousin and a real hoody-looking guy. They were very much embarrassed, and believe me they had a right to be.

Now, Ann, I just can't continue to live with my cousin after this. Shall I tell my folks the whole story? They'll never understand why I moved out, if I don't explain. Help, and soon, please — BUNDLE OF NERVES

Dear Bundle: Keep your lip zipped. If you repeat the sordid story to your family it will place your cousin in an impossible position. In years to come you'll be happy you kept quiet. Suggest to your cousin that since she created this unfortunate problem she should accept the responsibility of finding new living quarters, rather than place the burden on you. Then seek another roommate — a girl whose moral standards match your own more closely.

Dear Ann Landers: I'm worried about our son who just turned 17. He has always been serious-minded, a great reader and an outstanding student. Larry never had time for girls and made no secret of it.

Suddenly his personality has taken on a new shape. He spends long periods of time on the telephone. He takes great pains to comb his hair just so. He recently bought himself a nail file and last night I saw him shining his shoes. I hope this doesn't mean an end to his school work and studying. My husband says it's just a phase. Is he right? — STANDING BY

Dear Standing: It's a phase all right and with a little luck it may last 60 years. A boy 17 should be noticing girls. This doesn't mean he'll become less serious-minded: It merely indicates his interests are fanning out — which is good.

Confidential to HATER OF FILTHY LUCRE: Your quote is incorrect, so your argument is faulty. It goes like this "THE LOVE OF money is the root of all evil."
