An Open Letter To The Public

Recently a new type of merchandising has appeared on the scene and we feel that the public should be informed of the following facts. Discount stores have been advertising that they will sell ANY make of new car. Discount stores are not authorized agencies for Chevrolet products. Discount stores must secure their cars from authorized dealers and you have one more middleman to pay. In most cases your sales tax goes to another community and you have to pay increased taxes in your home community to replace this loss of revenue. Your hometown merchant pays heavy taxes, has large payroll, supports the necessary civic and charity programs to make your hometown a decent place to live and rear your family. You may find it costly and inconvenient to take your car to some remote dealer for service. You will find in the long run it will cost you less to do business with your local dealer; he has a sense of responsibility and obligation to you and wants to keep you as a friend and customer. Remember—your local dealer has been discounting for a heck-of-a long time—he pays less for his merchandise than the discount store, so he can give you a better deal.
