

Growth of Area Emphasized in Loan Statistics

The continued dynamic growth of the area was pointed out clearly yesterday when Jack Hoel, assistant vice president and manager of Great Western Savings and Loan Assn. Gardena office, reported that approximately \$4,500,000 in development loans had been made by his office during 1960.

Two million two hundred and fifty thousand dollars in loans were made on existing properties in the Gardena area, and nearly two and a quarter million was invested by Great Western in new construction here.

GREAT WESTERN'S Gardena office, located at 15112 S. Western Ave., has granted \$13,601,329 in loans on existing property and construction in the Gardena area since the office opened in the summer of 1954.

Hoel, estimating figures for 1961, stated that Great Western expects to loan over \$3,000,000 on existing properties and \$1,000,000 in new construction in Gardena during the coming year.

EMIL SELIGA, executive vice president of Great Western, commenting on the Gardena loan development report, stated that Hoel's residency in Gardena at 13909 Casimir Ave., and his active leadership in Gardena civic affairs, is in keeping with Great Western's program of close personal and financial relationship with the entire Gardena community.

"The constant expansion of Gardena's economy has more than justified Great Western's long-time belief that this community is and will continue to be one of the most progressive areas in Southern California. The Great Western Savings and Loan Assn. will always be at the service of all the civic, commercial, and community activities in Gardena," Seliga added.

IN KEEPING pace with the growth of Gardena, Great Western has purchased a 3-acre tract on the Northwest corner of Rosecrans Blvd. and Purche Ave.

Loan Office Displays Car For Contest

American Savings and Loan Assn branches in all 12 Los Angeles area locations are displaying the feature attraction of their annual January reinvestment promotion — a 1961 Ford Falcon, to be given away in February.

Registration for the Falcon is open to the public without obligation at any American Savings branch, said Vice President William Balopole.

THE JANUARY promotion, coinciding with one of the year's highest business peaks in the savings and loan field, is traditionally one of the biggest for American Savings. Stepped-up plans for this January, said Balopole, continue the accelerated trend of American Savings' promotional activities occasioned by -960 business gains, and anticipate new increases for the year ahead.

As in previous years American Savings branches are offering free appreciation gifts at this time for new account holders or added savings.

THE JANUARY reinvestment period, he explained, is the period at the start of the year's first quarter when savers re-appraise their financial holdings and determine what money to re-invest.

Continuation of American Savings' 4 1/2 per cent interest payments for the first quarter of 1961 has been announced by the board of directors. Basis for this interest rate, Balopole said, is American Savings' 1960 growth which resulted in current record high resources of over \$251 million and reserve funds totaling over twice Federal requirements.
