

Ice Capades Self For Camera Bugs

Ice Capades announces that Wednesday night, May 4, has been set aside as Camera Night for the benefit of all amateur photographers who attend the performance of the 20th Birthday Edition at the Sports Arena.

Immediately following the performance, camera fans will be permitted at rinkside to set up their equipment. All the

world champion skating stars of the show will return to the ice in costume to pose or perform as shutterbugs request.

For once, photographers will be able to set up the shot they want rather than having to catch it on the fly. Ice Capades stars will willingly accommodate the photos as long as any of them want shots.

Picture taking during the

performance will also be permitted, providing flash equipment is not used. It may be used after the show during the special session, however.

Glorious sunbursts of color and action are possible even with inexpensive cameras due to the intense and brilliant lighting on the ice. The spectacular costumes and lighting effects guarantee some of the most thrilling shots ever projected on a screen.

RIVIERANS TO GET LANDSCAPING TIPS

Richard Gawne, landscape architect who designed Los Arboles Park for the city, will be featured speaker at the May meeting of the Hollywood Riviera Homeowners Assn. Monday evening at 8 at Riviera School.

Gawne, a resident of the Riviera section of Torrance, will speak to the homeowners on the topic, "Landscaping Ideas for Minimum Maintenance."
