

INITIAL STEPS . . . El Camino coeds Suzy Brockman and Elissa Ellington take the first steps in college registration as the local college began this week to register students for the coming fall semester. Merl F. Sloan, director of student personnel, gives the girls their enrollment materials. Full-time students are urged to make appointments immediately in the counseling office.

IT'S A FACT...ABOUT ERMA
WORLD'S FIRST ELECTRONIC BOOKKEEPER

A MAGNET FOR 200,000 CHECKS
200,000 checks processed in just six hours...that's the amazing record of ERMA, Bank of America's new Electronic Recording Method of Accounting. Here's how ERMA works: the numbers on each ERMA check are printed with a special magnetic ink containing microscopic specks of iron. When a check goes through ERMA's electronic "reader", each number is magnetized and sends out an electric impulse which is recorded by a computer. Even though a check may be folded or crumpled, ERMA reads it accurately, computes your statement in moments, without error. That's our ERMA—and she works only at Bank of America!

ONE BOOKKEEPER FOR ALL OF SACRAMENTO
A single ERMA installation could take care of all the checks used daily in, for example, California's capital — in just under two hours! Pioneered and developed by Bank of America, ERMA provides the fastest, most accurate service for handling checks in banking history!

SEE YOUR NAME IN PRINT!
As part of its ERMA system, Bank of America now gives all regular checking customers free personalized checks — your name and address printed on all your checks at no extra charge. Why not open your account today?
