

How can I regain my health?

THE TRUTH IN THIS GREAT BOOK CAN HEAL YOU

Yes, you can be healed—no matter how serious the condition or how long it has continued—if you will prayerfully seek the truth contained in this great book, Science and Health with Key to the Scriptures by Mary Baker Eddy.

You may read or borrow Science and Health free of charge at any Christian Science Reading Room. The book can be purchased in red, green, or blue binding at \$3 and will be sent postpaid on receipt of check or money order.

Now Is the Time—to Plant New Lawns, Renew and Feed Old Ones

A cool, clipped carpet of green is the nicest thing that can happen to a gardener. It makes up for any lack of color; and what if the garden does have a few ragged edges? With a nice lawn to live with you can stand almost anything. The well-groomed lawn is not a conspicuous sight in most neighborhoods, however. Sad to relate, many gardeners seem never to find the right combination of effort and knowhow that produces the cool, clipped look mentioned above.

LOOK AT your own lawn this month. Is it everything you'd like it to be? Is it worth even trying to renovate? With many a run-down lawn, the best method of renovation is complete renewal. And September is the month to start a new lawn.

The first big step in lawn planting is to work up a proper seedbed. This is a crucial time for your future enjoyment of the lawn—a time when too many gardeners fall short. It is not enough merely to turn the soil and work it over. You have this golden opportunity to work in humus, and once the lawn is planted, you'll never have it again. If you are using a power tiller, as recommended by the California Assn. of Nurserymen, use it to turn under a load of steer manure, peat and compost. You really can't oversupply a lawn seedbed in these precious commodities.

USING THE back of a rake or board, rough level the seedbed, remembering that the gentlest of slopes is better than a perfect level. Then soak the area to its saturation point and let it settle to reveal high and low spots which need added grading. When the seedbed will settle no more, it is ready to plant.

Here you should stop and remind yourself that there is no such thing as a bargain lawn seed buy. Cheap seed mixes invariably have far fewer seeds and less coverage per pound than the better mixtures. Let your nurseryman recommend a proper mix. Use a spreader to insure even coverage, rake lightly to cover seed with soil, and top the newly sown seed with about one-fourth inch of fine peat. You have only now to water and wait. Use the finest spray and never let the seed bed dry out. Your carpet of green will soon be forthcoming.

Graham Film To Be Shown

Evangelist Billy Graham's newest feature-length film, "Shadow of the Boomerang," will be shown at the First Baptist Church of El Nido, Sunday and Monday night, at 7:30 p.m.

The church is located at 4558 W. 182nd St., Redondo Beach.

Starring vivacious Georgia Lee and television's Buffalo Bill Jr., Dick Jones, "Shadow of the Boomerang" is an outdoor action picture.

Setting for the screen drama is Australia's "Outback," the continent's vast interior region where some of the world's largest cattle stations are located. At the end of the picture the senior high and college age youth will conduct an "Afterglow" service. Refreshments will be served in the youth center.
