## Matching Funds Unavailable for Fallout Shelters

The California Disaster Office announced that no federal or state matching funds are available for the construction of fallout shelters.

Many inquiries have been received at civil defense offices concerning matching funds, particularly regarding planned community shelters.

The confusion has arisen in part because the federal government had a matching funds program for prototype shelters developed to familiarize citizens with various design possibilities.

HOWEVER, FUNDS appropriated in fiscal years 1960 and 1961 for the prototype shelter program have been entirely committed. No funds for private shelter construction have been appropriated in the current budget.

The recent session of Congress appropriated funds for the purpose of making a nationwide shelter survey. This survey will consist of locating, identifying, evaluating and marking shelter areas in existing buildings. The State of California has also announced plans to undertake such a sur-

## R. F. Nichols Begins Study At Northrop

Richard F. Nichols, son of Mr. and Mrs. James F. Cardwell, 5510 Wilma, has been accepted by Northrop Institute of Technology, Inglewood, for enrollment in the airframe and powerplant maintenance course.

Richard, a veteran of the United States Navy, attended William Chrisman High School, Independence, Mo. He expects to complete his intensive airframe and powerplant maintenance course in 50 weeks. He will be graduated, qualified to apply for his Federal Aviation Agency certificate as an "A & P" mechanic, and will then be in a position to choose from many types of employment and companies within the aircraft industry.

THE DISASTER Office pointed out that loans are available through regular lending agencies. Such loans may be insured through the FHA Home Improvement program, and also through the Veterans Administration.

The California veterans program does not now have funds available to make loans for fallout shelter construction.
