

Men of great talents, whether poets or historians, seldom escape the attacks of those who, without ever favoring the world with any production of their own, take delight in criticizing the work of others.

GETTING THE WORD . . . Attending Community Chest meeting in San Pedro recently were Mrs. Helen Johnston, Fred Poirier, and Mrs. Muri Jones, all of Torrance. The trio was among dozens of other commerce and industry volunteers in the Community Chest campaign who attended the special instruction session.

Money Talks

Editor, Torrance Herald
Thank Heaven for men like Mayor Isen! I find it hard to believe that the people of Torrance don't seem to be backing him concerning the Weekly People.

The old saying, "Money Talks," may apply here. I will not spend one cent in a store or restaurant where the Socialist garbage is for sale out front.

PERRY G. PATTERSON
MRS. P. G. PATTERSON

The Real Issue

Editor, Torrance Herald
Surely the "Pennies" photographer could have found someone in Torrance who understands the real issue concerning the Socialist Labor newspaper. The paper is an insult to the American way of life.

I wish to go on record in agreement with Mayor Isen: Torrance should not provide space for the sale of the Weekly People or any publication of subversive nature.

There is a principle at stake here. If the Socialists are allowed to sell their papers here, what next? We might as well lift the bans on all dirty literature.

Is there no one in Torrance who understands the urgent need to press closer to Americanism and away from Socialism.

MRS. JAMES G. FOSTER
(Ed. Note: The "Pennies" photographer makes no effort to seek specific answers, he asks five persons at random in various sections of the city for their views on current issues. Their answers are thus recorded.)

Disgust Voiced

Editor, Torrance Herald
Today you threw the Torrance Herald on my driveway

and the driveway of my neighbors. You are talking to capitalistic, free-enterprise minded citizens of Torrance who attended the City Council meeting on Oct. 10.

We are signing this letter as a means of telling you of our disgust of your coverage of the Torrance City Council meeting.

By the way, just who did cover the meeting out of your office?

You were fair only to Helen Long and her "Weekly People Paper," a product of "The Socialist Labor Party."

What is the matter? Don't you know or realize your right to work, choose your own profession, pay raises for you and your staff, and good old-fashioned American competition of free enterprise is at stake, let alone many dyed-in-the-wool red-red communists hide behind the Socialist Labor Party and all Socialist Labor parties.

The mere fact that you applaud and give so much bias to poor Mrs. Long and so much pure disregard to Mayor Isen and Councilman Bradford who has had direct contact with trash such as the "Weekly People."

The way your column is written is pure psychology to dupe and undermine the people of Torrance. Free Americans who don't want their children's minds deteriorated by such garbage as the Socialist and Communist party's handout, I'm an eleventh generation American, who had ancestors in every war fought in by the U.S.A. They fought and some died to preserve the right of every man to earn his way and reap the reward of a capitalistic republic.

We believe (as you neglected to print) the way Mayor Isen states, "Have all newspapers removed from public capitalistic sidewalks, light poles and banks."

Have them sold only by vendors, newsboys, and store proprietors who have the right in a free capitalistic republic to choose what they handle.

"IN ADDITION to all of this," Frenz commented, "she is a housewife."

Following the presentation, Dr. William Teague, vice president of Pepperdine College, spoke to the nearly 350 persons at the banquet on the values of planning and progress.

Dr. Stuart Marsee, president of El Camino College and master of ceremonies for the evening, cited the contribution of the city's service clubs for community progress.

... Petitions Add Protest To Dredging

(Continued from Page 1)
tion after the petitions had been filed, Virginia M. Glaze, employed by Wilson, stated in an affidavit that George Heaton appeared to be supervising the work at one time. Heaton was one of the circulators of the petition.

ANOTHER Wilson associate, Gordon Jackson, said in an affidavit that he witnessed Charles Deek supervising at one time.

The allegations of the suit state the city allowed attorney George Kurtz, Mr. and Mrs. Frank Burke, and Deek to remove and alter the petitions, "in a material manner."

Named in the suit are City Clerk A. H. Bartlett, Deputy John Bramhall, and assistants Gale Whitacre and Marjorie Moss.

City to Put Float In Parade

Bob Vroman has been named general chairman for Torrance's entry in the Pasadena Tournament of Roses Parade. His selection was announced by Chamber of Commerce President Harold G. Frenz.

Vroman will be assisted by Jerry Dunn, Junior Chamber of Commerce president; Bill Greenawalt, director of the Chamber who will serve as finance chairman, and Mrs. Margaret Clark, float decorations chairman.

The entry has been made in the names of the Torrance Chamber of Commerce, the Junior Chamber of Commerce, and the citizens of the City of Torrance. A community project, the float will be financed through public donations.

"Friend, we must save you." "But, if I wish it not?" "That will but make our resolve the completer."

WHAT'S DOING

R. S. Pyle, your Telephone Manager in Torrance

Thousands of pieces of man-made sapphire will cover the surface of the communications satellite now being developed by Bell Telephone Laboratories.

These sapphires are expected to protect from space radiation the cells of Bell solar batteries which convert sunlight into electricity. In the illustration, an engineer is covering a solar cell for a communication satellite with man-made sapphires.

This protection is expected to enable "working" satellites to endure the rigors of space for ten years or more, relaying telephone calls and television across the oceans.

FUTURISTIC PHONE AND TV COMMUNICATIONS

"U.S. Launches New Satellite," "Global Communications Seen From Satellites," are just a few of the headlines we've seen in the past year. "Satellite Communications" is the title of a new Lecture-Demonstration now being offered to clubs, church groups and other organizations. Ted Sloan, one of Pacific Telephone's Lecture-Demonstrators, is shown with miniature microwave towers and satellite which is used in simulating the concept of space communications.

With almost everyone interested in outer space, this program is up-to-the-minute with fascinating information on future plans as well as innovations in telephony which led to the present use of microwaves, making satellite communications possible.

Also available to groups is a film entitled "The Big Bounce," which shows how Echo I was carried aloft by a Delta rocket from Cape Canaveral.

Be sure to include these exciting programs on your group's calendar for the coming season by calling our Business Office, 328-1101.
