## Lessons in Origami at Broadway

The ancient Japanese art of paper folding, known as "Origami", will be demonstrated in the book department of the Broadway Del Amo on Monday, Nov. 20, from 7 to 9 p.m.

This unique method of folding colored paper into a variety of forms and designs, including animals, utensils, trinkets, etc., will be demonstrated by the Sakimoto family who will be dressed in their native Japanese costumes.

Origami, which is characterized by square or triangular pieces of paper folded into straight lines and accurate angles, dates back from the 12th to 14th centuries in Japan, known as the Heian period. The art has been handed down by Japanese mothers to their children for many generations and every well-educated child in Japan is an expert.

Origami has many modern decorative uses, including popular mobiles.

## USC Foreign Students Guests at AAUW Meet

Thanksgiving came early to the members of the International Relations study group of the Palos Verdes-Rolling Hills branch of the American Association of University Women and their husbands when they met last Thursday for a pot-luck supper at the home of study group chairman, Dr. Maxine Ziegler, on Open Brand Road, Rolling Hills.

A group of students from abroad enrolled in the study of International Relations at USC were honor guests at the dinner and contributed to the discussion of the world situation which followed.

Mrs. William Hughes read an account of the first Thanksgiving, including an excerpt from Governor Bradford's "History of Plymouth Plantation," in order to explain to the guests the significance of the American observance of a day of thanksgiving.

Then Dr. Ziegler, who had arranged with her former USC teacher, Dr. R. N. Berkes, head of the International Relations department, to have the group of students present, introduced the guests. They included: Mr. Eduardo La Torre from the Dominican Republic and his wife who is from Nicaragua; Miss R. Sander from West Germany; Mr. Ahmed Sabban from Saudi Arabia; Dan Arthakutti from Thailand; and Mr. James McClelland, whose home is in Pasadena.

Each of the guests gave a report on conditions in his country and took part in the stimulating give-and-take discussion that followed.

In charge of the dinner, which was in the Thanksgiving turkey-and-pumpkin pie tradition, were Mrs. Robert N. Morton and her committee, Mmes. Raymond Oddone, Harvey Wright, and Richard Smith.

For 1962...an all-new kind of Ford!

the car that's just right for just about everybody  
right size... right price...

You've never seen anything like it, because there's never been anything like it... until today. On the outside the new Ford Fairlane 500 measures a quick 197 inches from stem to stern. A good foot shorter than the cars from which it borrowed its name, it calls the snugest parking places home. At the same time, on the inside the new Fairlane 500 is every inch as big as some of the biggest Fords ever built.

The new Fairlane 500 is priced way under previous Fairlanes, well under many compacts. But Fairlane economy doesn't stop with a pretty price tag. It runs to amazing gas savings—with the world's first economy V-8 or the nickel-nursing Fairlane Six. Routine service is reduced to a minimum—30,000 miles on many items, only twice a year or 6,000 miles on the rest. And it adjusts its own brakes.
