Dear Ann Landers: My mother and father were divorced seven years ago. I'm 14 years old now and I remember my father well although I've seen him only once in all that time, and that was six years ago. He was a very good-looking man. My mother says that was the main part of the problem.

Lately my dad has been on my mind a lot. I dream of him often. In my dreams he is always sweet to me, and not disagreeable, which is the way my mother says he was. I want to write him a letter and tell him I'd like to see him sometime. My mother says he knows where I am and if he wanted to see me he would have done so a long time ago.

He sends Mom support money every month so he knows our address. What is your advice? Mom says she will take your word as final. Should I write or not?—EDITH

Dear Edith: If you'd like to drop your father a note I see no reason why you should not do so. It may be that he would like to see you but is reluctant to suggest it because he doesn't know how your mother would feel about it. Since she is agreeable, by all means go ahead.

Confidential to WHAT'S WRONG WITH US: Not a thing. I think your friend has a vivid imagination. Show me three children who grew up without a single argument and I'll show you three vegetables.

If alcohol is robbing you or someone you love of health and dignity, send for ANN LANDERS' booklet, "Help For the Alcoholic," enclosing with your request 20 cents in coin and a long, self-addressed, stamped envelope. Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped, self-addressed envelope. (C) 1962, Field Enterprises, Inc.

Today Mrs. Sequeira shares an old Chinese recipe with Torrance's other cooks. The TA PIN LOU with its ritual of preparation is to the Chinese what the Sukiaki dinner, with its table ceremony, is to the Japanese.

TA PIN LOU is cooked preferably in a Chinese brass chafing dish, right on a table. TA PIN LOU may be prepared in the kitchen and brought to the table ready for serving as any other dish. This, however, is not the usual way of doing it, for part of the charm of TA PIN LOU lies in the ritual of preparation and cooking.

The five children range from 9 to 18 years of age, and all but the two youngest had some schooling in Hong Kong. Mrs. Sequeira says she wanted to come to this country because her children could have a better education. The oldest boy, Louis, 18, will enter Loyola University in the fall on a scholarship which he won at Loyola High School.

The other children are in school in Torrance. Orlando, 16, goes to Bishop Montgomery High. Fran, 12, Michael, 10, and Raymond, 9, all go to Nativity School.

Besides cooking, Mrs. Sequeira is a legal secretary, and her husband is an accountant. He was the Hong Kong chess champion several years ago.

In addition to her work, household chores, and her cooking, Mrs. Sequeira takes an interest in politics, and finds American politics much more exciting than British politics.
