

NFL, Ford Dealers Plan Punt, Pass, Kick Tests

The second annual punt, pass and kick competition for the nation's grade school football enthusiasts was announced yesterday by the National Football League and the Ford dealers of America.

"PP&K" pits the punting, passing and place-kicking skills of boys seven through 11 against all other participants of the same age. The program attracted 205,000 youngsters last year, when it was launched, and was cited by President John F. Kennedy for its contribution to "the physical fitness of our youth."

Registration for this week's PP&K competition will be held at Ford dealerships, or at locations designated by them, Oct. 1-31.

TOP PRIZE for the 10 national finalists—one in each age group from both the Eastern and Western Division team areas—will be an all-expense paid Tour of Champions for the youths and their parents Dec. 26-30. It will begin with a two-day visit to Washington, D. C., which will be highlighted by a special tour to the White House.

From Washington, the group will be flown for a two-day visit to the city in which this year's National Football League championship game will be played Dec. 30. The Eastern Division titlists will be this year's NFL championship game hosts.

At the halftime of the title game, before the overflow crowd that traditionally attends NFL championship games, the two finalists in each age group from the Eastern and Western Divisions will square off for national honors. In a ceremony immediately following this competition, NFL Commissioner Pete Rozelle will present the five national winners footballs autographed by the two teams competing for the title and trophies symbolic of their national championships.

FIRST PHASE of the punt, pass and kick program is competition in local contests, sponsored by Ford dealers with the cooperation of the NFL. With some 5,000 such contests likely to be held, 75,000 prizes will be awarded to winners of local competitions. First prize will be a warm-up jacket, while football helmets and autographed footballs will be the second and third prizes.

Total scores, based on distance and accuracy of their punts, passes and place kicks, will determine the winners.

From among those competing in local contests, five boys—one each in the seven through 11 age group—will be named regional winners in each of the 14 NFL team television coverage areas. These 70 youths will display their PP&K prowess at the halftime of designated November and December NFL games of their home teams, and from them will emerge the 10 who qualify for the Tour of Champions and the showdown competition for national honors at the NFL championship game.

Three Coeds To Attend St. Mary's

Two Torrance coeds will attend Mount St. Mary's College at the main campus in West Los Angeles and a third will attend the Doheny mansion complex—a new downtown campus of the school, it was announced here yesterday.

Entering classes on the main campus Sept. 12 will be Mary Alice White, 3203 Pacific Coast Hwy., and Patricia Westwood, 3718 W. 172nd St. Scheduled to attend classes at the downtown campus is Nancy Drumright, 5313 Sharynne Lane.

will receive junior NFL uniforms.

AFTER THE local competitions, special trophies will be awarded in each state to the boys who compiled the highest point total in their age bracket statewide.

At the White House during the 1961 Tour of Champions, the five national champions re-

ceived autographs of President Kennedy and letters in which the President commended them on their PP&K achievements.

In a letter to Pete Rozelle and the Ford dealers of America, the President commended the co-sponsors of PP&K, stating, "Programs of this type will enable our youth to build the energy and strength that are their American heritage."

Teachers' Art Class Scheduled

"Art for Elementary Teachers," a college course with two units of fully transferable credit in the education curriculum, will be offered in the Evening Division of Harbor College during the fall semester, according to an announcement by Laurel Baker, chairman of the construction and art division.

The class meets Friday evening from 6:30 to 9:30 beginning the week of Sept. 17. There is not prerequisite for the course.

Allyse Harrell, new instructor in the course, is an elementary art supervisor for the Los Angeles City Schools where

she advises teachers on art media suitable for elementary children. Her travels have taken her through the United States, Mexico, and South America; she has just completed a year's trip around the world by cargo liner.

Mrs. Harrell, a graduate of Fresno State College, completed graduate work at the University of California, University of Southern California, UCLA, as well as the University of Mexico. She obtained a master's degree at Long Beach State College.

THE COURSE, "Art 10, Art for Elementary Teachers," is

designed to meet the needs of the elementary teacher in the classroom. It emphasizes the study of design and color using simple materials found in the elementary school. The course will include painting with tempera, as well as design with paint, crayon, and chalk.

Some basic three-dimensional craft will be explored, such as paper construction, papier mache, and vermiculite carving.

Creativity is stressed but special attention is paid to the development of good classroom organization by the prospective teacher. Special effort is made to equip present and future

Meetings for Teachers Set

Teachers in the local schools will report for orientation programs beginning Thursday,

teachers with a better understanding of the art needs of elementary children.

REGISTRATION for evening classes is by appointment. New applicants for the Evening Division should apply early so that entrance tests may be completed and transcripts of previous work obtained. Applications are available at the Admission Office of the college. The deadline for filing applications for the fall semester is Sept. 7.

Sept. 6. New teachers are scheduled to attend a series of meetings Thursday and Friday, Sept. 6 and 7, while others will report Monday, Sept. 10.

Meetings with principals, district officials, and tours of special facilities in the district are planned. New teachers will be honored at a breakfast Friday, Sept. 7.

The meetings and tours are designed to acquaint new teachers with the district, and to acquaint others with new policies or materials.

Classes begin on Wednesday, Sept. 12, throughout the district.

STACY AUGUST COSMETIC SPECIALS!

Purity Overcomes Allergy

Many cosmetics contain substances that react violently on certain individuals. Why is a mystery, but medical science has proven that many cosmetic ingredients can cause allergic reactions; itching, skin irritations, asthmatic conditions. Cosmetics from which all potentially harmful ingredients have been removed are called Hypo-Allergenic Cosmetics. The extra purity of these cosmetics makes them suitable not only for allergy sufferers, but for every woman who cares for her complexion, or has sensitive skin.

Physicians Formula

Physicians Formula cosmetics were developed and produced by a doctor who specialized in allergies. Today they offer the widest choice in shades and types of cosmetics in the Hypo-Allergenic fields. They are created for those who need and want the purest possible cosmetics and skin treatments.

HIGHLIGHTS OF THE BASIC HYPO-ALLERGENIC TREATMENT LINE

Deep Cleanser

Completely free of irritants. Modern, scientific formula completely eliminates skin pulling, is soothing, provides skin beautifying protein.

\$175 to \$275

Physicians Formula Moisture Lotion
