Bruinsma Lauds Stiff Cuba Policy

The 17th Congressional District did not get the representation it deserves in Washington when its Congressman, as reported by the "Congressional Record," voted against a strong policy on Cuba. This was the charge made by Ted Bruinsma, candidate for Congress, as he toured shopping centers in the district yesterday.

"Before adjournment," said Bruinsma, "there was introduced in Congress a resolution to put some teeth into our policy on Cuba. Our Congressman voted against this resolution. He voted to continue the weak policy that had put us behind the eight-ball and would lead us to war if we didn't let Castro and Khrushchev know that we do not intend to give any ground in the fight against communism."

"PEOPLE throughout the 17th District — on the streets and in their homes — have told me they don't understand the situation in Cuba. They were alarmed that our great nation should be pushed around here in our own hemisphere. They wanted a firm policy. "Each day as more and more administration leaders moved toward a firm policy, our congressman, by his vote, continued to show that he does not recognize the Communist conspiracy for what it is. "His voting record since 1946 shows a softness towards the Red threat, and I think people in the district are looking for someone who will take a much stronger stand to preserve our peace and security. "Isn't it foolish to spend billions around the world if we can't even keep our own back yard clean?" Bruinsma asked.

Chest Chairman On Television

Mrs. Alan Ducommun, residential chairman of the Harbor Area, will guest for the Community Chest on the Dorothy Gardner show, Nov. 6 (KTLA, channel 5, 3 p.m.). She will speak in behalf of the 30,000 volunteer Community Chest doorbell ringers now out to solicit the housewife's share of the \$11,500,000 needed for 155 Chest agencies now serving the community.

Area School Executives Meet to Discuss College

Superintendents and other staff members of high school districts in the Southwest area met recently with the planning staff of the new South Bay State College to discuss academic relations associated with the opening of the college in two years.

President Leo F. Cain introduced his planning staff and described the direction of the college under the Master Plan for Higher Education in California and the policy of the Trustees of the California State Colleges. Also explained were the background studies being conducted by state college staff members.

THESE STUDIES include such subjects as: characteristics of the student population, new trends in education, relation of the college to the higher education complex, and characteristics of the community service area. Data obtained from these studies will be used as a basis for planning the curricula and administrative organization of the new college.

Problems discussed by the group were: 1. advanced placement opportunities for high school students; 2. admission requirements; 3. teacher education programs; 4. and areas of curricular emphasis.

Progress reports regarding subsequent college developments will be made available to the school districts by means of a newsletter. Also, additional meetings will be held between staff members of the college and the district.
