

## Red Cross Welcomes Donors

Four hospitals in Torrance and two in Harbor City were supplied with a total of 5,671 pints of whole blood through Red Cross during the past year.

These six hospitals were among the more than 200 in Los Angeles and Orange Counties whose blood supply from Red Cross exceeded 165,000 pints.

All of the blood was provided by volunteer donors and most of it was collected at bloodmobiles like the one scheduled at the Torrance Elks Lodge 1948, 1820 Abalone, from 2:30-7 p.m., Nov. 29.

ESPECIALLY conscious of the vital service provided by the Red Cross blood program are hospital administrators, Robert Lyon, Frank Cooper, Robert Eislebin and Frank Kredel, who also serve as members of the Torrance-Lomita Red Cross branch board of directors.

Cooper reports that 543 pints of Red Cross supplied blood were used by patients at Torrance Memorial during the past year.

Riviera's supply of Red Cross blood totaled 496 pints, according to Lyons. Eislebin says Little Company of Mary patients had a benefit of 405 pints of Red Cross blood.

Bay Harbor Osteopathic Hospital's administrator, Kredel, reports his faculty's supply from Red Cross amounted to 352 pints.

Harbor General lead the list of six hospitals in its supply of blood from Red Cross with 2,597 pints—1,034 more than received the previous year. Kaiser Foundation patients utilized 1,278 pints of Red Cross blood.

BECAUSE this is a volunteer program, Red Cross is able to make blood available at all times with only minimal charges for processing and handling in the hospitals.

This last program of community service has been made possible by volunteer donors whose continued support is essential, says Mrs. Robert Orsini, blood chairman for the Torrance-Lomita ARC branch.

"As the blood program continues to grow, additional donors are needed. At each of our bloodmobiles the welcome mat is out for new donors as well as those who have given blood through the Red Cross in the past."

Appointments to give blood at the forthcoming community blood bank may be made by calling Mrs. Orsini at FA 8-0647 between 10 a.m. and 3 p.m.

"GIVING BLOOD through the Red Cross when a person is physically able assures that donor or a member of his family who may need blood in the future, that it will be available and supplied without charge from Red Cross."

Mrs. Orsini says although Red Cross was able to supply 65 per cent of all blood used by patients in L. A. and Orange Counties last year, 35 per cent of those needing blood were forced to buy it from commercial sources.

Commercially collected blood costs the patient about five times more than blood obtained through Red Cross.

## 'Fallen Man' Subject for Lesson-Topic

The enlightened nature of the man of God's creating will be explained Sunday at Christian Science Church services.

Selections from the Bible in the lesson-sermon on the subject "Adam and Fallen Man" will include these verses from Ephesians (5): "Be ye therefore followers of God, as dear children; . . . For ye are sometimes darkness, but now are ye light in the Lord; walk as children of light."

Readings from "Science and Health With Yea to the Scriptures" by Mary Baker Eddy will include (p. 200): "The great truth in the Science of being, that the real man was, is, and ever shall be perfect, is incontrovertible; for if man is the image, reflection, of God, he is neither inverted nor subverted, but upright and Godlike."

Forty per cent of all fatal accidents on California highways during 1961 were single car accidents, according to the California Highway Patrol.
