**Holiday Dance Set for Firm**

Annual Christmas dinner dance for Southern California Gas Co. employees will be held Dec. 1, at the Westport Beach Club, in Playa del Rey, according to plans revealed today by Andrea Lovald, president of the "Flames and Dames" Women's Club.

The gala evening event, scheduled to begin at 6:30 p.m. with prime rib of beef dinner following at 7:30 p.m., is open to gas company employees, their spouses and guests.

The annual holiday affair, sponsored by the "Flames and Dames," the Southwest Division Women's Committee, will include entertainment and dancing by the Dick Allen Combo featuring vocalist Tom Grayson.

**Campaign for Dec. 2-9 Polio Clinics Launched**

Los Angeles County now has all the necessary "tools" to stamp out polio provided the general public co-operates sufficiently in the Sabin Polio Vaccine mass immunization

campaign, a leading virologist stressed yesterday.

Dr. Paul Wehrle, director of the Communicable Disease Section of Los Angeles County General Hospital, warned that those who have taken the Salk vaccine must not ignore the Sabin clinics, which will next be held Dec. 2 and 9.

**North Delay Sports Night**

GAA Sports Night scheduled for Nov. 30 at North High School has been postponed until a later date because of the North-Loyola game, Miss Carolyn Filling, GAA sponsor announced yesterday.

All previous activities scheduled for the Sports Night will be carried out on the later date.

considered a polio threat and an argument for full public support of the Sabin-On-Sunday (SOS) program.

The Type II Sabin Polio Vaccine clinics, sponsored as were the October Type I clinics by the Los Angeles County Medical Assn., will be held Dec. 2 and 9 at countywide locations to be published in local newspapers.

UNLIKE THE hypodermic-administered Salk preparation, the Sabin vaccine is easily swallowed on a lump of sugar or in a sip of syrup, and affords personal protection while also "clearing" the individual as a "carrier" of the dread disease.

A token donation of 25 cents is asked, but nobody is turned away. Persons who missed their Type I vaccine should take Type II nevertheless and receive the initial dose from their physicians later.

"Salk vaccine is effective in reducing the frequency of polio, but we have seen cases where individuals already have taken four or more shots," Dr. Wehrle asserted. "It is not always enough."

HE ADDED that "adults get polio with a fair amount of regularity, though children are most susceptible," and therefore all age groups above three months must be immunized.

He noted that even the great numbers of tourists from all over the country who visit Tijuana, Mexico, along with residents of this country, can be
