Aliens Must File Report By Thursday

George K. Rosenberg, district director of the Immigration and Naturalization Service, reminded aliens in this area today that Thursday of this week is the last day for filing address report forms as required under the provisions of the 1952 Immigration and Nationality Act.

Rosenberg said the law requires that every alien except those having diplomatic status, representatives of certain international organizations and persons admitted temporarily as agriculture laborers, must file the address report during January of each year at the nearest post office or Immigration and Naturalization Service office.

Alien address reports for 1963 are expected to total upward of 400,000 for Southern California.
