Day Off Slated For City Crews

City trash crews will not work on Thanksgiving Day, reports City Manager Wade Peebles.

Peebles said collections normally made on Thursday will be made on Friday, Nov. 29, and Saturday routes will cover areas normally covered on Friday.

Similar adjustments will be made for Christmas and New Year's Day.

Tartar Teen Talk

By Pat Adams

Don't be disillusioned, boys, if the girls around campus have their noses turned in the air this week . . . there's a reason.

The Girl's League is sponsoring its annual Posture Week contest in which 20 finalists will be judged throughout the week on their posture and poise. The top three winners will be announced at the Girl's League aud call tomorrow.

The guest speaker, Mrs. Burus, is an instructor with Torrance Evening Adult School. All girls are urged to participate. The 20 finalists were selected Nov. 15, from the interested girls in school.

CHRISTMAS is just around the corner, and so is the spectacular Winter Formal. Music by the Esquires will highlight the evening of Friday, Dec. 20, setting the tone for the Yuletide Season. The Elks Lodge is the spot, so reserve the date . . . don't wait until it's too late.

The Student Council at THS, plus a few outstanding seniors, will participate in the seventh annual Junior Citizen's Day next Monday and Tuesday. The city officials will step down from office and let the leaders of tomorrow assume their duties.

Monday some of the students will meet in the council chambers for a briefing session on the City Council agenda Tuesday evening. Tuesday, the students will tour the city facilities and then top an eventful day with a banquet at West High School.

GUEST SPEAKER for the banquet will be Arthur Selland, mayor of Fresno. Tartars participating in the event include Jane Allen, Mark Hart, Jeff Carpenter, Judi Smenner, Karen Keller, Steve Brown, Sharon McMullen, Ray Cano, Pat Adams, and Ann Robinson.

Other THS leaders who will assume city offices are Carol White, Janet Kimbrell, Sandra Coffee, Alan Schwartz, Cadance Meeker Bonnie Hagan, Judy Allen, Kathy DuPlessis, Diane Pringle, Collette Lander-ville, Ann Perez, Linda Corder, Pat Baisle, and Sandy McElhose.

The Torrance High School Speech and Debate Club came through with flying colors at the novice speech tournament at Aviation High School last week, Friday night the Freshman debating team, Dennis Johnson and Dennis Greenwood, won gold medals for victories in three of three events.

Bob Hammond and Rober Webb placed with awards of superiority. Nov. 16, the day of individual events, Alvin Sasuga, Sherry Demyan, and Judy Osborn were given certificates of merit. Congratulations for a series of great performances.

TRULY the finest game of the season . . . certainly the most exciting we have seen with this year's Tartar varsity . . . was last Friday's final game with El Segundo. The game was played at the Eagles' home field.

For a while, the Tartars threatened to spoil homecoming for the Eagles with a half-time lead of six points. But El Segundo came back to take command and win the game, 26-19.

Player-of-the-week was Rene Ponce, who won the honor for the second time in as many weeks. The season closed on a year of bitter losses for our 1962 Pioneer League Champs, yet the student body has never been more proud.

See you next week—when the basketball men have taken to the courts for the honor of the maroon and grey.

First in their field because they're Second to none

Cadillac

HOW TO STAY A STEP AHEAD OF THE WEATHER!

Cadillac's automatic Comfort Control*—an exclusive option this year—doesn't actually predict the weather. But that's about the only thing it won't do to assure your comfort winter and summer.

Here's how it works. When you take possession of your 1964 Cadillac, you dial your favorite temperature—and then you simply forget it. Cadillac Comfort Control does all the rest. It keeps the interior the way you want it regardless of outside conditions and regardless of the changing seasons.

In fact, it forecasts the results of rain and sun and adjusts for them before they can affect your comfort. And this is but one of the more than a hundred advancements in this exciting 1964 Cadillac car.

Behind the wheel—well, that's where the new 1964 Cadillac really shines. Its new engine . . . its greatly refined Hydra-Matic and new Turbo Hydra-Matic transmissions . . . its exclusive true-center drive line . . . its triple braking . . . make it a revelation to drive. Go see for yourself. You'll learn how easy it is to stay a giant step ahead of both the weather and the rest of the automobile industry!

*An automatic system combining heating and cooling—at a price comparable to some manually-adjusted air conditioners alone.

MORE TEMPTING THAN EVER—AND JUST WAIT TILL YOU DRIVE IT—SEE YOUR AUTHORIZED CADILLAC DEALER
