### WHAT'S DOING

#### Telephones for the hard-of-hearing

Did you know a special telephone is made for people who don't hear well? It looks just like other telephones, but you can adjust the volume to "low," "medium" or "high" simply by turning a little button, as shown in the picture at right. And of course the volume can be easily turned back to normal if you wish. This telephone is available to those who need it. It is an example of the way we try to bring more and better service at the lowest possible cost to everyone. Pacific Telephone works to make your telephone a bigger value every day.

#### Free Booklet for your personal telephone numbers

You can have the local or long distance telephone number you want right at your fingertips with this free booklet. It'll help you find numbers more easily, complete your calls faster. For a copy, just call, write, or drop in to your local Pacific Telephone business office today.

#### An extension telephone for your home

For just pennies a day, you can enjoy the convenience of an extra telephone. In the garage or basement . . . in your bedroom, or kitchen, an extension telephone saves steps, saves time. We offer this service once again because extensions require only additional telephone sets, not central office facilities. To order your extension, call your local Pacific Telephone business office.
