Free Trips To Moon For Kids Today

Local children will be treated to free trips to the moon today Thursday, March 9 when Frankie Luer brings his huge space ship to the Clark Market at Pacific Coast Highway at Hawthorne Boulevard, Torrance. Free trips in the rocket ship

will be available from 12 noon to 7 p.m. Built by Luer Packing Company to entertain their young friends, Frankie Luer's Space Ship is an authentic 60-foot replica of the giant interplanetary space ship of the future. Inside its metal hull, the space ship contains a comfortable 34-seat auditorium where children are seated for their 7-minute trip to the moon. During their trip the young space travelers experience all the thrills of supersonic flight, from the first surge of power as the ship blasts off to the final bump as it lands again. Technically, the Luer Space Ship is a mechanical and electronic wonder. The full color animated film of the trip is projected onto the front "view plate" by means of a lens device that resembles a periscope. This allows a projection space of a few feet to accomplish the same things as a huge auditorium projection room, and adds realism to the film. Vibrators mounted in the tail of the ship give the illusion of flight with both sound and vibration. Other unique devices on the Luer Space Ship record the altitude and flight time in a series of lights that can be seen by the passengers.

Youth Needs Discussed

Various answers were given to the question, "What can be done to help youth?" which was discussed last week at a meeting of the Torrance Coordinating council.

The following needs were discussed:
1) Favorable newspaper publicity regarding teenagers;
2) More employment opportunities;
3) Establishment of a youth center;
4) Using school cafeterias and other facilities for recreational activities when school is not in session;
5) Getting the school district to raise a 5-cent override tax for recreational purposes.

Arlene Lesar and Kenneth Wheat were featured during the program as spokesmen for the Youth Coordinating Council. The next meeting of the youth council will be March 12 at 7:30 p.m. at 1628 Gramercy. Purpose of the meeting will be election of officers, reorganization of the council, and making of future plans.

THE DENTIST SAYS:

ERNEST J. TARR, D.D.S.

BLEEDING GUMS CAUSE LOSS OF TEETH

Question—"The gums around my lower front teeth bleed very easily. How can this condition be cured?" asks Mrs. R.K. of Lomita.

Answer—Bleeding of the gums around the teeth might be caused by either of two things—tartar accumulation irritating the gums or excessive pressure caused by chewing mainly towards the front of the mouth.

Where the back teeth are missing and not replaced, the two jaws will come closer together than they should so that the upper front teeth come down over the lower more than they did before. Overlapping creates more pressure, resulting in strain on the teeth and damage to the bony support, which in turn is accompanied by inflammation and congestion of the gums. Then, the gums bleed easily.

the gums around the front teeth often comes as a result of missing teeth in the back of the mouth. This is also aggravated by tartar accumulations on the inside surfaces of the teeth.

If these conditions are not corrected, the overtaxed teeth will be endangered. Of course, there are other causes for bleeding gums but the two above are among the most prominent.
