# Men Return To Work At National Supply

Workers at National Supply co. went back to work again this week, with picket lines being pulled off at 11 a.m. Sunday, following the signing of the agreement at 10 a.m.

A total of 415 members of the Oil, Chemical and Atomic Workers union-CIO, voted to ratify the settlement reached during negotiations with the company. Sixty-three members voted against ratification.

Al Chandler, local union representative, said the terms of the settlement are as follows. Workers will receive a 15-cent an hour across the board raise, bringing the scale up to \$1.77 an hour. This was one of the union demands at the time of the strike. The original demand was for \$1.82.

Pay will be made retroactive to November 6, rather than November 1, as asked originally. Unit chairmen, who until now were granted eight hours

negotiating time, were granted 8-12 hours. Request was for unlimited time. The union settled for time-and-one-half on Sundays instead of double time. There will be a cost of living adjustment every six months, with a 1.6 cents adjustment slated for January 31. A 6.8 cents cost of living adjustment will be granted on each anniversary date for the period of the three year contract, Chandler said.

Vacations include two and a half weeks after 10 years; three weeks after 15 years (this was so already); and three and a half weeks after 25 years.

More than 800 workers were involved in the strike.

# Only Jacqueline Cochran's FLOWING VELVET CONTAINS EXTRAORDINARY HYDROLIN

New Hope for Millions of Despairing Women with Drying, Prematurely Aging Skins

What makes skin look old? Modern science now knows that the cause is dehydration—lack of moisture in the sub-surface tissues. Sensitive skins always dehydrate sooner. However, dehydration occurs in nearly all skins—young skins as well as mature skins!

Unique, entirely different from old fashioned greasy face creams, FLOWING VELVET is a superlative blend of Hydrolin and other rich components. Only FLOWING VELVET acts in these three ways:

- It furnishes moisture that actually sinks into your skin.
- It provides necessary oils for essential lubrication.
- It maintains the normal balance of oils and moisture.

Flowing Velvet is greaseless. Just a few drops of FLOWING VELVET at night and in the morning will supply you safely, naturally, with the special moisture your skin needs!

Caution! Many have tried but no one can successfully imitate FLOWING VELVET because Hydrolin, its exclusive ingredient, is controlled by Jacqueline Cochran! And remember FLOWING VELVET CONTAINS NO HORMONES.
