First Day of School Problems Multiply for Mother of Twins

How to be a room mother for two. That's the problem of Mrs. John Adams of 4722 Jacques St., whose twin girls will attend their first day of school tomorrow.

With Katherine Lee and Susan Marie in different kindergarten classes at Sepulveda Elementary School, Mrs. Adams is finding it difficult to be two places at once.

"Susie says I don't love her anymore if I'm Kathy's room mother and not hers," says the perplexed Mrs. Adams.

As problems go for a mother of twins this will probably prove to be a snap compared to the preparations of getting the five-year olds ready for their first day.

their hair up every night," she adds.

For the girls the beginning of school is a pretty exciting prospect. They will attend a half day walking home for lunch.

"They were disappointed that they wouldn't get to carry a paper sack with their lunch like their Daddy does," says Mrs. Adams, but other than that they are raring to go.

Totalling up the outlay for six dresses at \$5 apiece, two slips at \$8 and two pair of shoes at \$10 a piece, Mrs. Adams could breathe a sigh of relief that at least the rush for the first day was over.

OFF TO SCHOOL—Twins Kathy and Sue are given a two-at-one-time hair-combing session as their mother, Mrs. John Adams, of 4722 Jacques St., prepares them for their day at kindergarten. The 5-year-olds will begin regular classes tomorrow at Sepulveda Elementary School.

Lesson-Sermon

What is the true nature of substance, material energy or spiritual power? Are spiritual laws and tangible realities which can be found and which will bring human thought and experience closer to a practical daily understanding of the presence and power of God? The Lesson-Sermon on "Substance" in all Christian Science churches on Sunday goes into these questions and speaks of God and His laws as true substance.

The Golden Text which keynotes the sermon is from James (1:17), "Every good gift and

every perfect gift is from above, and cometh down from the Father of lights, with whom is no variableness, neither shadow of turning."

"What is substance? questions the first reference read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy.
