**HE'S VITAL doing his job... and doing his job for his country**

The National Guard has a unique mission... and a vital one. Constantly at the ready, it is on immediate call for the disturbances and disasters of peacetime as well as for the supreme demands of battle. This dual mission is carried out by 472,000 citizen-soldiers of the Air and Army National Guard, men you know as your neighbors. The protection provided by these community men makes it possible to keep America's defenses up without the

larger dollar outlay needed to maintain similar numbers of active Army and Air Force personnel. Today, the National Guard is better trained and better equipped than ever before. Famous since Concord, the Guardsman is... in every way... an Up-to-the-Minute Man, today. On runway alert... at air-defense Nike-Ajax installations... in swift striking efficiency... in everything vital to our country, the Guardsman is vitally needed.

## YOUR NATIONAL GUARD
