**Upholstered
Furniture Key
To Room Style**

Upholstered furniture is a style keynote in a living room. The living room all the family takes for granted can be vitalized by the wise choice of new upholstered furniture.

If yours is a living room about which you say, "it's kind of modern" or "I guess you'd call it traditional" or "it's sort of Early American" . . . give it character, plus comfort.

Choose a sofa design in the style you'd like to have dominate the room. Select a large and a medium sized chair, not as a set, but in the same general style as the sofa. Base your choice on the design of the largest wood piece in the room.

This might be a cabinet or a desk. Or you may have a favorite pair of tables or a cocktail table. Team any of these with upholstered furniture in the same or kindred style and your whole room will no longer be "sort-of" . . . but definitely a style you like.
