

Bridge Players, Your 'Week' Is Scheduled

Publicity committee of the Torrance Area Unit Bridge Club of the American Contract Bridge League met recently at the home of Mr. and Mrs. Ralph Robertson.

Discussion was held on the forthcoming bridge sectional at Torrance Elks Club Nov. 10 to 12.

Robert Christie, chairman, announced that Mayor Isen will make a proclamation declaring second week in November officially as Bridge Week in Torrance.

This affair will be held at the Mayor's office, Oct. 16. Hal Frentz, president of the Chamber of Commerce, Kenneth Hillman, tournament chairman, and Polly Dales, president of the Torrance Area Unit will be special guests for this day.

This unit of the ACBL takes in surrounding South Bay areas. Everyone is invited to attend this sectional. Players from all over the world will attend.

Following the meeting, Mr. and Mrs. Robertson were host and hostess at a bridge game in their rumpus room. Those attending were Mr. and Mrs. John King, Mmes. Richard Fouquette, C. R. Glover, W. O. Smith, Joe Hammski, O. L. Johnson, H. Davies, and Kenneth Hillman and Robert Christie.

ADMIRING TROPHIES to be given away at bridge tournaments scheduled for Nov. 10-12 at Torrance Elks Club, are Bob Christie, YMCA director, Mrs. Ralph Robertson of Torrance, and Mrs. Edward Gremley of San Pedro. Week of tournament will be official "Bridge Week."

Rolling Hills Man Heads Research

Advanced telemetry techniques are being studied by Space Technology Laboratories, Inc., a subsidiary of Thompson Ramo Wooldridge Inc., under a contract from the Naval Ordnance Laboratories, Corona, Calif., to develop improved methods of synchronizing telemetry systems in rocket flights.

The study is being conducted under the guidance of Dr. C. J. Carter of Rolling Hills, in the Communication Laboratory of STL's Electronics Division, El Segundo.

Carter said the contract is specifically directed to the development of synchronizing methods for telemetry systems using the 2200 to 2300 megacycle transmission band. Study also considers instrumentation which may be required to accomplish the desired synchronization.

Carter, head of the Techniques Section of the Techniques and Components Department, has been with the company since mid-1959.

MORE STAINLESS SINKS

Today nearly one out of every six kitchen sinks is made of nickel stainless steel, and manufacturers expect that by 1970 stainless steel sinks will account for 75 per cent of the total.

Insurance Agents Earn Certificates

Three Torrance men, all special agents for the Prudential Insurance Co., have completed special professional courses, executive director of agencies, Edgar M. Kelly, announced.

Michael Powers, 165 W. Jay St., Donald F. Carlson, 22913 Carlow Rd., and John W. Bill, 4944 Pacific Coast Hwy., were presented certificates of completion signed by Kelly.

Powers, Albert L. Jason agency representative, completed two advanced courses in business insurance planning and in estate life insurance planning.

The first course surveys business organizational structures and emphasizes the roles life insurance and career life underwriting play in the successful operation of those businesses. The estate course surveys financial problems of estate conservations.

Carlson, special agent for the Joseph Boyland agency, completed a 21-week advanced course in life insurance programming. This course is designed to give Prudential agents added professional skill in the technical procedures of a well-rounded life insurance program.

Bill, associated with the Long Beach agency, completed a 40-week course in advanced life insurance underwriting. This course enables agents to provide the highest possible degree of service to their clients.

Inside Your Home

Your Decorating Problems Answered
By BEN L. WALLACE, N.S.I.D.

Mr. Wallace:

In reference to the interior painting of a small room, would you suggest painting the wood doors and the moulding the same color as the walls or use some other color?

Mrs. John T. Koons, Torrance
Mrs. Koons: I suggest that you paint the doors and all of the trim the same color as the walls. This will tend to make your room look larger and will take away the heavy vertical lines that doors and the moulding create. As for painting the doors a different color than the walls, I suggest you only do this after you have had some professional consultation on the whole room.

Mr. Wallace:
Recently we purchased a living room sofa, two chairs, plus tables and lamps. After spending a considerable sum of money on these items, our room still does not look like I think it should. To be frank, I am afraid to buy any more for fear I will really ruin the room. Please give me some suggestions?

Mrs. T. W., Torrance
Mrs. T.W.: Your problem is very common where you already have your basic furniture pieces. Actually all your room needs is the finishing touches. Think soundly on these items as to what you can actually use, such as ash trays, cigarette lighter, magazine holder, etc. Then put in some items simply for looks such as vases, plants, false bouquets of flowers, etc. This leaves you with one of the most important things, the pictures. With pictures and paintings I feel that you should have some professional advise from a qualified

Mrs. Beverly Gorane, Riviera
Mrs. Gorane:
This can very definitely be done quite successfully if you use good sound judgment in selecting the proper pieces for creative scale. You did not

mention in your card if there was a strong influence of colonial on the interior, if there is this must be maintained, by painting and some restyling in the contemporary feeling. It might be better in this case to not decorate too extreme in the contemporary style, try instead to hit a good middle of the road. I suggest that before you start your purchase you seek some professional advice on your home.

Mr. Wallace:
The 24-year-old soldier is a 1955 graduate of Torrance decorator.

Note: Send your questions on a card or letter to the Torrance Press, care of Ben L. Wallace, N.S.I.D., 3228 Sepulveda Blvd., Torrance, Calif.

SALUTE

Serving aboard the attack cargo ship USS Washburn, one of 10 ships and other units taking part in Operation Wagon Master, is Richard F. La Rosa, machinist's mate third class, USN, son of Mr. and Mrs. Peter La Rosa of 4240 W. 178th St., Torrance.

The 10-day amphibious training exercise, which ends Sept. 24, is designed to range through all phases of a modern amphibious operation, beginning with the landing of some 5,500 marines at Northwest Harbor, San Clemente Island.

Anti-aircraft and artillery support of such a landing are receiving special emphasis.

Serving in the Pacific aboard the escort vessel USS Bauer, operating out of San Diego, is Paul S. Thornton, fireman, USN, son of Mr. and Mrs. Carroll Thornton of 2421 Andreo, Torrance.

The Bauer returned to San Diego, Sept. 18, upon completion of a six-month cruise with the Seventh Fleet in the Western Pacific.

While on the Far Eastern tour, crewmembers visited Hawaii, the Philippines, Japan, Hong Kong, Taiwan and Okinawa.

Army Sgt. Wayne E. Jordan, 31, son of Mr. and Mrs. Clarence H. Jordan, 20947 S. Denker, Ave., Torrance, recently graduated from the 4th Armored Division Non-Commissioned Officer (NCO) Academy in Germany.

Jordan received four weeks of refresher training in various subjects with emphasis on leadership and combat tactics. The purpose of the academy is to broaden the professional knowledge of the NCO and to install in him the self-confidence and sense of responsibility required to make him a capable leader of men.

The 4th is one of five U.S. divisions in NATO's "Pyramid of Power" in Europe. A squad leader in Company A of the 4th Armored Division's 41st Infantry in New Ulm, Jordan entered the Army in March 1951 and was stationed at Fort Ord before arriving overseas in April 1959 on this tour of duty.

The sergeant, whose wife, Donna, is with him in Germany, is a 1954 graduate of John C. Fremont High School in Los Angeles.

Gustavo P. Sanchez Jr., whose father lives at 18525 Falda Ave., Torrance, recently was promoted to specialist four at Granite City (Ill.) Engine Depot where he is a member of the 738th Engineer Company.

Sanchez, a parachute rigger in the company, entered the Army in April 1960 and received basic training at Fort Ord.

The 24-year-old soldier is a 1955 graduate of Torrance decorator.

Store Shows Shelters for Atomic Fallout Protection

In the light of recent world events, a new market has opened with particular significance for the family shopper, usually the woman. The homemaker must now turn attention to civil defense preparedness for her family.

In addition to feeding and clothing them, planning their recreation and physical development, she must now plan for their survival in the event of nuclear war.

Palley's Stores have planned a series of civil defense displays featuring the Atom Fallout Shelter, manufactured by Atom Fallout Shelters, Inc., and a wide selection of economically priced equipment and supplies from which homemakers may choose in preparing for family survival.

The Atom Fallout Shelter, approved by Los Angeles and the Department of Civil Defense, has several features which make it worthy of consideration in the current shelter market. It is constructed of heavy steel, chosen both for its stress strength per

square inch and to combat the moisture problem underground.

All seams and joints are securely welded for maximum fallout protection. It is dome-shaped, a design which successfully lessens the shut-in feeling associated with claustrophobia, having a floor space of 8 by 12 feet and center height of eight feet.

An approved ventilating system featuring both a powered and a hand fan, plenty of storage space for food, supplies and a water tank, built-in bunk beds, and a separate room for a chemical toilet are other features of this shelter. The outside is protected by radioactive-resistant paint, and it is to be installed three feet below ground level.

Ahlgren Receives Diploma at Vale

George W. Ahlgren, claim specialist for State Farm Mutual Automobile Insurance Company, 3810 Pacific Coast Hwy., Torrance, has been awarded a diploma from Vale Technical Institute at Blairsville, Pa.

Ahlgren has just returned from a three-weeks advanced training course in auto damage estimating and repair techniques at the institute. He is one of 800 State Farm men who will complete the course this year.

Atom Fallout Shelters are designed and manufactured under the direction of Ray Stevens, owner of Atom Precision Products.

The family shopper can inspect this shelter and the equipment and supplies on display at first hand, make comparisons, ask questions, make decisions, at Palley's store in Torrance today.
