Educator Supports Bond Issue

In support of Proposition 2, which would authorize a \$380 million bond issue for construction of state and junior colleges by the University of California, Dr. John Steinbaugh stated, "It is incumbent upon the state of California to move promptly to prepare state institutions for the accelerating enrollment of college students."

Dr. Steinbaugh, now education consultant and former president of the board of trustees of the Palos Verdes School District, has served as dean of admissions at USC and as principal of Torrance High School. He is a member of the South Bay Committee for "Yes" on Proposition 2.

Private colleges and universities of California, although making every effort to expand their facilities, cannot provide for more than a small share of the increase in higher education students," continued Dr. Steinbaugh.
