

**SCHOOL TO OPEN . . .** Waleria Christian Academy, a church related non-denominational kindergarten, will open in the fall at Waleria Assembly of God, 244th Street and Hawthorne Avenue. The Academy classes will meet in the church building. A program of academic instruction coupled with Christian training will be offered.

## Waleria Christian Academy Opening Here for Fall Term

Plans for the fall opening of Waleria Christian Academy, a church related non-denominational kindergarten, at the Waleria Assembly of God are being completed, according to the Rev. Edward L. Hughes, pastor of the church. The Academy will hold classes in the Waleria Assembly of God building at 244th Street and Hawthorne Avenue. It will offer a program of academic instruction coupled with Christian training.

## Homeowners

(Continued from Page A-7)

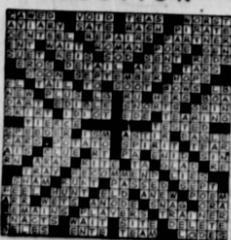

y Isabella de Portugal, who commanded the viceroys Mendoza that all those lands discovered by their illustrious navigators increase the realm of Imperial Spain . . . Adjacent are more examples from the famous chart collection at Galley West . . . XVII Century maps from Spain, France and England. In the illuminated glass case is displayed the famous English clipper ship model "The Thermopye." Other appointments such as the menu form were inspired by XVI Century Spanish manuscripts. Galley West, designed by famed Seattle architect, Roland Tetry, is owned and operated by Interstate Hosts, Inc. The sixty-eight year old national restaurant concern also has operations in eleven airports throughout the country, including Los Angeles, San Francisco, Sacramento, Seattle, Honolulu, Denver, Chicago, Detroit, New Orleans, Dallas and Houston. In addition, the company also handles the in-flight food service for some twenty-three foreign and domestic airlines.

INTERSTATE is proud of the fact that over one-fourth of America's domestic airline passenger traffic is exposed to their airport food, beverage, and gift shop operations. Recently the company was selected by the San Diego Port Commissioners to operate all of the restaurant and gift shop facilities in the new San Diego International Airport scheduled for completion early in 1967.

In addition to airport operations mentioned above, Interstate's Turnpike Division also operates fine restaurants and gift shops on five of the nation's newest turnpikes in Oklahoma, Indiana, West Virginia, and Kentucky. For over forty years, the company has operated all of the Shopping Centers aboard the ships of the Matson Navigation Company and American President Lines.

In keeping with Interstate Hosts policy of providing the public with the finest in restaurant facilities, they have invested in excess of \$300,000 for the complete remodeling and refurbishing of the Galley West restaurant at Marineland of the Pacific. The entire restaurant operation at Marineland will be under the direct supervision of A. L. (Larry) Blair, vice president, Interstate Hosts, Inc.

## SOLUTION

## History of Airplanes On Agenda

World War I aces, biplanes, rotary engine fighters, and exciting aerial dog fights will be featured in movies, sound tapes, and authentic scale models at the Riviera Homeowners Association meeting for adults and children tomorrow.

Nick G. Stasinos, a member of Cross and Cockade, an organization of Aero-Historians, will speak at the 8 p.m. meeting at Parkway School.

With his associates in Cross and Cockade, including military, airline, and test pilots, Stasinos has built and flown World War I rotary engine fighters. He is engaged in producing the oldest World War I aircraft in flyable condition in the world.

The historian has been building models of World War I fighters for many years. His collection of 18-inch fully detailed handmade models of aircraft of this period is one of the most complete in the world and rivals the exhibits in leading museums. Some of these will be on display at the Homeowners Association meeting.

A VERY BRIEF business meeting will be held to present summary reports on street and traffic improvements.

## County Battles To Save Water

Protection of valuable underground water supplies along the coastal areas of Los Angeles County is one of the major battles currently being waged by county water engineers.

The problem, reports Supervisor Chairman Burton W. Chace, is one of sea water infiltration into underground basins, thus threatening one of the county's principal sources of supply.

To combat this menace, Chace said, the county is in the third year of a five-year, \$6.5 million program to seal off fresh water basins from sea brine damage.

"Residents of Los Angeles County still depend on underground sources for nearly 50 per cent of daily water needs," Supervisor Chace asserted.

"It is vital that we protect these basins!"

THIS IS BEING done, he explained, by sinking a series

of new wells along the coastal basin (West Coast Basin Barrier Project) and pumping fresh water into the wells to create a "mound" or barrier against salt water contamination.

Now nearly two-thirds toward completion, the current program involves multiple contracts with 35 recharge wells in operation, plus an additional 10 initial test wells in the Manhattan Beach - Redondo Beach area.

Nearly 38,000,000 gallons of fresh water currently are being pumped into these barrier wells daily, according to reports by Walter J. Wood, chief engineer of the Flood Control District.

The project, designed specifically to safeguard one of the major sources of water supply in the coastal region, will extend from Playa del Rey to South Bay area, Chace added.

Projected completion date for the program is early in 1967.

## Top Montgomery Grads Receive Special Awards

Numerous scholarships, honors, and special awards were given to graduating seniors at Bishop Montgomery High School Sunday as the school held commencement exercises for 239 students.

Topping the list of winners were Anne Bowen, Carmen Godinez, Barbara Dineen, Mary Barnidge, Jill O'Hara, John Wentworth, and Bill Bedsworth, all of whom received California State scholarships. Judy O'Hara was named an alternate scholarship winner.

Other scholarship winners included: Susan Chandler, Marymount College; Carmen Godinez, Jill O'Hara, and Mary Kaye Kane, Mount St. Mary's; Pat Howard and Lucy Moore, St. Joseph College, New Mexico; Don Malatesta, Catholic University of America; Tim O'Keefe, University of San Diego, and Brenda Dunphy and Barbara Evans, Loren School of Cosmetology.

STILL OTHERS were: Bernice Fox, Manhattan Beach Police Department; Nancy McCall, University of California, Irvine; Pat Kagawa, summer award for chemistry; Mary Kaye Kane, Los Angeles Art Center summer grant, and Bill Bedsworth, an honorary scholarship from Loyola University.

## Why You Can Afford New Translucent\* Dentures at Dr. Campbell's

\*Made with translucent teeth and translucent denture material the kind which do not have the telltale hard brilliance formerly characteristic of artificial teeth . . . accepted by dentists as the finest for making dentures, the closest imitation of natural teeth.

Dr. F. E. Campbell, dentist, says—  
**I SAVE YOU MONEY IN THESE TWO WAYS:**

1. I buy supplies and equipment at volume prices for 12 dental offices.
2. I save in making each denture because I make so many of all types each day.

### MADE IN MY OWN LABORATORY

Each of my 12 offices has its own dental laboratory . . . on its own premises. This works for close professional supervision and for efficiency and economy.

### Save Even More With Rebuilt Dentures

For a new fit with your old teeth, have them reset in new translucent material. You save a considerable part of the cost of entirely new dental plates.

### EXAMINATION WITHOUT APPOINTMENT

THE PHONE THAT TELLS SAVINGS IN ADVANCE

FA 0-1471

for EXACT PRICES—not estimates

PENSIONERS: Bring ID card. We do the rest.

### Fantastic Credit Terms With No Money Down

Wait 45 days for 1st small payment

I carry my own credit, not having strict finance company regulations. My business rewards me with word-of-mouth advertising. As a result, I prefer serving you on easiest terms. Easy-to-get-approval of credit.

### FAST PLATE REPAIRS
