

Wig Boon for Busy Lady

PENNY PAVENTI
... In Favorite Pre-Styled Wig

Wigs have become the smart and stylish thing to wear, pointed out Penny Paventi, head of Sears Wig Department for Southern California. Today modern women find it almost impossible to get along without at least one wig.

"Once Milady owns one wig, she will start planning a wig wardrobe of different colors and styles," said the expert who takes her own advice and uses many varied types of wigs—and styles.

Wigs allow the active woman of today to join in such sports as swimming, water skiing, snow skiing, and sailing without a worry, she continued. With the quick addition of a fashion wig she can appear in a perfect coiffure any hour of the day or night regardless of her previous activities. The busy career woman can enjoy her time off in leisure without giving a thought to Monday morning's hair-do.

We have 88 colors to choose from ranging from the popular silver platinum to jet blacks, including beautiful frosted colors and many varied mixed colors," Miss Paventi said. "Our styles range from the short crisp cap cut to the long glamorous flip."

The most attractive, durable and natural wigs are made from 100% European human hair, she explained. Her own wigs look so natural, she pointed out, that quite often she is asked to remove them to prove the fact. "I wear it brushed away from the face and comb some of my own hair through it; this can be done when you select a wig the same color as your own hair," she said, and added, "wigs are truly part of today's busy life."
