**EMERGENCY NUMBERS IN FRONT PAGES OF YOUR TELEPHONE DIRECTORY**

I hope it never happens to you, but in an emergency, would you know how to get help fast? In a crisis—whether you need the highway patrol, the police, the fire department, the doctor, or whomsoever—you can save important minutes when you dial emergency numbers direct.

In the front pages of the phone book you'll find spaces available to write in your own emergency numbers. May I suggest that you fill them in? Also, it's a good idea to make sure everyone in your family, including the children, knows how to use them.

When making an emergency call, please remember this: it is vital to give your location and phone number! And, if for any reason you can't dial the emergency number yourself, just dial "0" for Operator. She's always there to help you.

Here's a reminder from the United Crusade: "One gift works many wonders. Your gift will be put to work where it will do the most good—and many needy people will be helped."
